SLK RANGE

A new, German manufactured, steel hoisting range recently introduced into the UK, CLH are pleased to be a key distributor for Wellell SLK. These hoists and standaid's have several key features that give them an advantageous combination of cost, quality and functionality.

- 3 year warranty*
- Soft-start and soft-stop ensuring gentle pick-up and put-down
- High power and lightweight Li-ion batteries offering a greater number of lifts between charges (Eazy-Up Standaid & Carry Compact Hoist Only)
- Emergency lower function on the actuator across all models (in case of hand control and/or control box failure)
- Option to raise and lower via control box in the event of a handset failure
- Very quiet operation
- Foldable without the need for tools (excluding the Eazy-Up standaid)
- Made in a factory that uses 80% green power from pure solar energy

*Excludes battery which comes with a 6 month warranty.

SLK EAZY-UP STANDAID FIXED BASE

The SLK Eazy-Up combines German engineering with exceptional value for money. With its particularly low chassis and clever fixed base design, the Eazy-Up is extremely manoeuvrable and usable in most locations around the home.

- Ultra-low fixed base design for great manoevrability and sturdiness
- Soft-start and soft-stop motor
- Easy to use in narrow spaces and doors
- Easier to stand up due to deep foot platform
- Extra large knee-pad for ultimate user comfort
- Knee-pad is removable and machine-washable
- Lightweight and high power Li-ion battery that will do 150-200 cycles under maximum load on a single charge
- Max user weight: 160kg / 25 stone

SLK EAZY-UP STANDAID LEG SPREADING BASE

The SLK Eazy-Up combines German engineering with exceptional value for money. This leg-spreading version comes with larger castors than the fixed base design, allowing for better manoevrability on carpeted floors.

- Soft-start and soft-stop motor
- Extra large knee-pad for ultimate user comfort
- Knee-pad is removable and machine-washable
- Manual leg spreading
- Easier to stand up due to deep foot platform
- Lightweight and high power Li-ion battery that will do 150-200 cycles under maximum load on a single charge
- Max user weight: 160kg / 25 stone

SLK CARRY COMPACT 160 HOIST

The Carry Classic Compact is a universal patient lifting hoist with a short chassis making it ideal for narrow living spaces and awkward corridors.

- For users up to 1.7m / 5ft 7in height
- Soft-start and soft-stop ensuring gentle pick-up and put down of the patient
- Can be used to lift from floor level
- Easy to use in narrow spaces and corridors
- Manual leg spreading
- Foldable without tools and easily transportable if necessary
- Emergency lower function
- Battery indicator light on handset
- Operation via control box possible (in the event of a hand-control failure)
- High power Li-Ion battery that will do 70-100 cycles under maximum load on a single charge
- Max user weight: 160kg / 25 stone

802533	SLK Carry Compact 160 Hoist

SLK CARRY 185 CLASSIC HOIST

The Carry 185 Classic is an ideal solution for care homes and home-care, with its high-spec German build quality and great value. Offering ultimate patient comfort with its gentle 'soft-start, soft-stop' lifting mechanism, this unit is also fully foldable without the need for tools should space be an issue.

- Available with manual or electric leg-spreading
- Soft-start / soft-stop actuator for gentle pick up and lowering of the user
- Battery indicator light on handset
- Option to raise and lower via control box should there be a handset failure
- Emergency lower on actuator
- Will lift from the floor
- Highly manoeuvrable in small areas
- Max user weight: 185kg / 29 stone

802535	SLK Carry 185 Hoist - Electric Leg

SLK MULTY HYBRID HOIST/STANDAID

The SLK Multy Active Hybrid Standaid is a unique product which can be turned into a universal hoist with the addition of the Conversion kit. When purchased without the conversion kit, it is an excellent transfer stand assist offering ultra comfortable 'soft-start / soft-stop' gentle pick-up of the user.

With its telescopic stand mast put to max height, the conversion kit turns the standaid into a fully operational universal hoist, a feature unique to the Multy Active. The unique design of the telescopic mast means this item contains a 2-in-1 solution where both a hoist and a standaid is required but space is limited. Made in Germany, this item is built to last and offers great value for money.

- Soft-start and soft-stop enabling a gentle pick-up and lowering of the user
- Lifting from floor level is possible
- Manual leg spreading
- High manoeuvrability in a small area
- Telescopic stand mast
- Uses loop fitting slings
- Operation via control box is possible (in the event of a hand control failure)
- Spring safety device on spreader bar
- Material: Powder coated steel.
- Max user weight: 185kg / 29 stone

Code	Description	CLH Price
802538	SLK Multy Hybrid - Complete Kit	£1,695.00
802536	SLK Multy Hybrid - Active Standaid	£1,425.00
802537	SLK Multy Hybrid - Conversion Kit	£275.00

802504	Oxford Major 200 Hoist

OXFORD PROFESSIONAL RANGE

The professional range from Oxford® offers superior quality and functionality. Manufactured mainly from toughened aluminium, these hoists are lighter and therefore easier to manoeuvre than their steel counterparts.

- Made from aluminium offering a lighter hoist
- Fitted with Smart Monitor as standard (An intelligent system that records the exact amount of work completed by the actuator and advises the user to schedule key maintenance helping ensure the lift remains in optimum condition)
- Supplied with an off-board charging station as standard
- Superior build quality and design offering a better experience for both patient and carer

OXFORD JOURNEY STAND AID

The Journey standaid from Oxford incorporates the latest design and manufacturing technologies to produce the most compact and portable, folding standaid on the market today.

- Complete with Smart Monitor
- Folding design for easy storage and onward transportation
- Unique adjustable cow horn
- Compact and easy to manoeuvre
- Max user weight: 155kg / 24 stone

Code	Description
802514	Oxford Professional Journey Standaid

OXFORD PROFESSIONAL ADVANCE HOIST

The award winning Advance patient hoist from Oxford signifies a real stride forward in patient lift design and performance. It uses the latest design and manufacturing technologies to ensure the Advance is the most functional and stylish hoist in its class today.

- Compact and easy to manoeuvre
- Folding design for easy storage and transportation
- Swan neck leg design to get closer to wide objects
- Max user weight: 155kg / 24 stone

Code	Description
802510	Oxford Professional Advance Hoist

OXFORD PROFESSIONAL PRESENCE HOIST

The Oxford Presence Professional Lift is a heavy-duty mobile patient hoist, competent enough to handle almost any patient-handling task. Additionally, it has an incredible range of motion, which ensures critical and high level surface transfers are carried out with relative ease.

- Outstanding lifting range of 1910mm
- Powered leg positioning
- Swan neck leg design to get closer to wide objects
- Interchangeable spreader bar/cradle and weigh-scale options
- Smart monitor records each lift and indicates when service is required.
- Max user weight: 227kg / 35 stone

Code	Description
802519	Oxford Professional Presence Hoist

OXFORD PROFESSIONAL STATURE HOIST

The Oxford Stature is a vertical patient lift, recognising the true needs of the modern care environment. With an extensive lifting range, the Stature copes easily with even the most demanding of patient handling situations.

- Careful attention to product design ensures correct ergonomic usage, protecting both the patient and caregiver from injury.
- Outstanding lifting range of 390mm - 1550mm
- Powered leg positioning
- Swan neck leg design to get closer to wide objects
- Max user weight: 227kg / 35 stone

Code	Description
802520	Oxford Professional Stature Hoist
