Sedens 400

Foam-in-Cell Seat Cushion

Lightweight comfort for everyday pressure relief

Whether you're using a wheelchair, sitting for long hours, or need extra support at home, the Sedens 400 offers a smart solution for relieving pressure and staying comfortable.
This foam-in-cell cushion combines air cells and supportive foam to help protect your skin. With an easy-to-use air valve, you can easily take it with you when it is closed, or connect to a pump for alternating pressure relief.
Made with breathable, easy-to-clean materials, the Sedens 400 helps you sit better, feel better, and stay protected every day.

Foam

Static Relief, Safe and Easy
This foam-in-cell design distributes pressure evenly and helps prevent bottoming out. Grab and Go whenever you need.

Optional Alternating Mode
For extra relief, connect the cushion to a compatible pump (e.g., Domus 3) for alternating. Great for longer use or higher risk of pressure points.

Non Slip, Sit Tight
The non-slip base keeps your cushion firmly in place—ideal for wheelchair users or anyone needing added stability.

Custom Comfort
Easily adjust the cushion's firmness with the built-in pressure valve.
Enjoy a personalized sitting experience that adapts to your body and comfort needs.

Sedens 400

Multi-use cushion for everyday pressure relief, whether at home or on the go

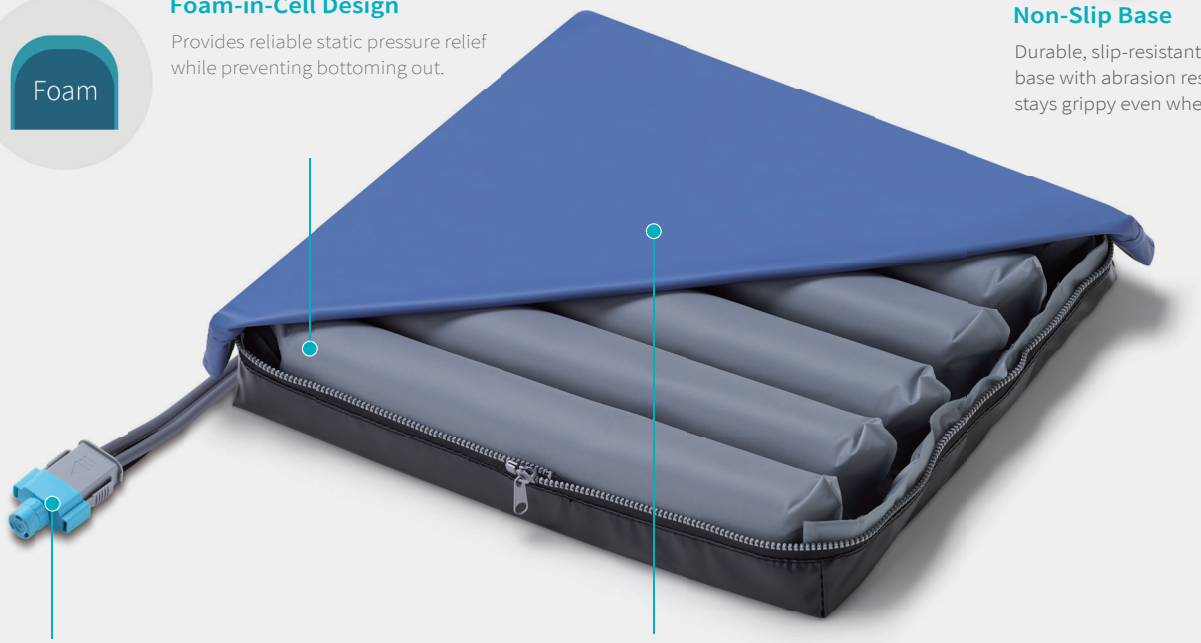
Non-Slip Base

Durable, slip-resistant stretch PU base with abrasion resistance — stays grippy even when bent.

Foam

Foam-in-Cell Design

Provides reliable static pressure relief while preventing bottoming out.



Adjust Your Comfort

Twist the air valve knob to fine tune the cushion's softness or firmness.

Advanced 4-Way Stretch Top Cover

Offering low shear, low friction, vapor permeability, and moisture protection, coupled with optimal immersion and envelopment.

Water Resistance | Flame Resistance | Biocompatibility | Vapour Permeable | Fungistatic | 4-Way Stretch
