InteracTable

Digital Tables

Introducing a completely unique over-bed model as requested by you.

Keeping residents engaged is hard

Many residents confined to their beds can feel isolated, bored, or disconnected from the world around them.

InteracTable +

This interactive 22" touchscreen table brings entertainment and connection directly to the bedside. From playing classic games and re-discovering hobbies, to connecting with loved ones or exploring the world through apps, it provides an easy, hygienic way to keep residents stimulated and engaged every day.

- Swivel touch-screen for optimal viewing
- Compact base fits most beds
- Flat-packed modular design for fast delivery
- Battery powered - no trailing wires
- Easy-clean surface
- Built in Table for added practicality
