Pricing from: £462.00

## Chair Frames

### Standard Specification

All of our chair frames are designed specifically for use in a normal contract environment and combine strength, stability and longevity with style, practicality and comfort.

### Reinforced Option

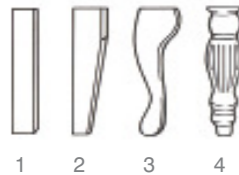

For more demanding environments, we offer a 'reinforced' chair frame option on many of the chair frames which in addition to our standard specification includes an 18mm hardwood ply solid seat platform and underside.

### Secure Specification

Designed to meet the needs of the more challenging environments, in addition to our 'Reinforced' specification, the chair frames in our 'Secure' range of seating are clad inside and out in 6mm hardwood ply. The out back panel is also made from 18mm ply which is closed using concealed fixings. The installation of fixed steel plates to provide extra weight is an additional option.

### Leg Options

Where these noted symbols are shown, the following leg options are available:

- 1 = Straight Leg
- 2 = Tapered Leg
- 3 = Queen Anne Leg
- 4 = Turned Leg

## Fabrics

### Range

We have accounts with all major fabric companies and are able to offer customers an unrivalled choice of contract quality fabrics which meet the varying demands of the healthcare, hotel, leisure and residential markets.

### Price Banding

Our upholstery products are priced in bands dependent upon the price per metre of your chosen fabric. To request the full band pricing for any particular chair, or to enquire which banding any particular fabric is, then please get in touch with us.

## Fabric Options

In addition to choosing a single fabric for each item of upholstery, we now offer a range of ways to incorporate contrasting fabrics on the same chair, which is shown as 'Fabric Options' through the portfolio, the key to which is:

- CP = Contrast Piping
- 1 = Inside back only (except dining chairs which are full-back only)
- 2 = Inside back and seat cushion only
- 3 = Seat cushion and back cushion only
- 4 = One third on inside arms only
- 5 = One third of inside arms and one third of inside back
- 6 = Outside arm panels and outside back panel

## Wood Finishes

### Wood Stains

Our range of wood stains have been specially formulated to tone with our standard range of wood grain laminates (which we offer as a tabletop material). These standard colours are can be viewed on page 56 of this catalogue. The show wood elements of our chair frames and tables are all manufactured from real wood. Being a natural product, the colour and wood grain can and does vary which is part of the charm of a product manufactured from natural materials.

### Lacquer

We use 'Medicote' lacquer when polishing all of the show wood timber elements of the tables and chairs which we make. This market-leading product has been specifically formulated to prevent bacteria surviving on its surface. Medicote also meets the FIRA standard 6250 for lacquer rated for Heavy/Severe use.

### Guarantee

We guarantee (starting from the date of delivery of the furniture), that all furniture manufactured by our tradesman will be free of manufacturing defects, subject to reasonable wear and tear in a normal contract environment, for one year.

### Terms and Conditions

All sales are subject to our terms and conditions, a copy of which is available on request. E&OE. Pictures are for illustration purposes only and may not show actual product.

### Pricing

All pricing shown in this catalogue is for the lowest priced option (Band A fabric with no additional features/options) and does not include VAT or delivery charges. Delivery charges may apply, especially to small orders and orders for delivery outside the UK mainland or within Central London – please enquire before ordering.
