

WELCOME TO THE CLH CATALOGUE

ISSUE 2 - 2018

CLH Healthcare is a family business which has been supplying a vast range of products & services to the healthcare sector since 1975.

The foundation for our steady growth over 40 years has been our strong business ethics and values, of integrity, trust, and long-term relationships with our customers, suppliers, and all we work with.

As probably the largest independent healthcare suppliers in the South West, we are able to offer the value for money that is essential for our customers, and the reliability that comes with 95% of our products being delivered on our own vehicles by our own trained drivers.

All of our team aim to provide the highest levels of customer service, and strive to exceed our ethos - "Committed to Care".

DELIVERIES

Fast, regular delivery by our own fleet of vans ensures you have the personal service you deserve. From experience we have found customers like a regular weekly delivery so they can keep track of their housekeeping and cut down on paperwork. We are happy to deliver in these patterns but also offer a rapid response delivery service for those emergency situations, we will do all we can to ensure your orders are delivered on time – every time.

Deliveries under £50 will incur a small handling cost, which you will be advised of at time of order.

SOURCING SERVICE

Should you not be able to find exactly what you are looking for in our catalogue, we are happy to source other products to your exact requirements, just give us a call and we will do all we can to help.

PAYMENT

We are pleased to offer a free 30 day credit account to all our customers (subject to successful application). We also have good leasing options available to help you spread payment costs on capital expenditure items. We also accept all major credit cards.

SERVICE AND REPAIRS

We have an in-house team of qualified engineers, specially trained to look after, repair and service your equipment at regular intervals to help you comply with all legislation, providing you with peace of mind.

T&C's All sales are subject to our terms and conditions, a copy of which is available on request. 'E&OE.

PROFESSIONAL HOISTS

At CLH, we have been supplying patient lifting hoists into Care Homes for many years. We pride ourselves in only supplying quality hoists that have been tried and tested in their relevant environment and have proven themselves to be usable, durable and long-lasting. Purchase with peace of mind!

INVACARE BIRDIE & BIRDIE COMPACT FOLDING HOIST

With maximum space for the user, the Invacare Birdie offers a truly comfortable lift and transfer to or from beds, chairs or even the floor. The lifter is designed to ensure that folding and unfolding can be carried out easily and without the need for tools. In addition, the lifter can be dismantled into two parts if needed, also without tools.

The compact version of the Birdie Hoist is a lower and narrower model and is therefore ideally suited for use in a care home where passageways are narrow and space is limited

- Long boom for high user comfort
- The user can easily be rotated and positioned. No risk of injuries to the knees
- Ease of transport and storage. No tools required when folding/unfolding or when dismantling the hoist
- Optimal security to avoid risk of accidents
- Emergency stop and emergency lowering
- Electric emergency lowering
- Comes with detachable battery and on board charger.
 Off board battery charger is also available
- Click on 2 point quick release spreader bar
- Superior ergonomics for carers
- Large rear braked castors
- Manual leg spreading Simply step on the pedal to adjust the leg spread
- Birdie Compact Safe Working Load: 150kg
- Birdie Safe Working Load: 180kg

OXFORD CLASSIC PATIENT HOISTS

Bringing together over 50 years of design and development, the Oxford Classic Range of mobile lifts is ideally suited to home care, nursing and acute environments.

KEY PRODUCT FEATURES

· Interchangeable spreader bars

Available in three sizes, small, standard and large to accommodate a wider variety of patient shapes and sizes

· Emergency Descent

Manually operated emergency descent function for increased patient safety

· Digital Weigh-Scale

An optional class III rated digital weigh-scale is available on all classic mobile lifts for easy and accurate patient monitoring

· Over-sized Push Handle

Optimised position and ergonomically designed for ease of manoeuvrability

Smart Monitor

A state-of-the-art, on-board diagnostic tool providing invaluable operational and service data <u>for both the</u> user and service engineer

Foot Pedal Leg Adjustment

The ergonomically designed foot pedal is perfectly positioned to ensure the user's foot remains level during operation, helping to avoid risk of injury

• High Grade Tente Castors

A highly durable design that aids manoeuvrability over the majority of floor surfaces. The rear castors incorporate an easy-to-operate brake pedal

OXFORD SMART MONITOR

The Smart Monitor control system records the exact amount of work completed by the actuator each and every time the lift is used, regardless of a patient's weight or lift height covered. The intelligent system advises the user to schedule key maintenance helping ensure your lift remains in optimum condition.

- Fitted as standard to all Oxford hoists
- Accurately identifies service interval periods
- Identifies total number of actuation and work completed
- · Identifies lift over-loads
- · Battery level indicator

The Oxford Mini has been developed especially with the home care environment in mind. This compact but highly durable lift offers superb manoeuvrability around the confines of domestic and nursing settings where space is at a premium.

Safe Working Load: 140kg / 22st

Code	Description
802507	Oxford Mini Patient Lifting Hoist - Hydraulic
802508	Oxford Mini Patient Lifting Hoist - Electric

OXFORD MIDI

The Oxford Midi has become the 'gold standard' in home care, offering surprising performance for a hoist of its size. The Midi offers the perfect solution for community and nursing environments, whilst being sympathetic to the space constraints it might encounter.

Safe Working Load: 180kg / 27st

Code	Description
802505	Oxford Midi Patient Lifting Hoist - Hydraulic
802506	Oxford Midi Patient Lifting Hoist - Electric

OXFORD MAJOR

The Oxford Major is the perfect cross over product for both nursing and acute care environments. Its high lifting capacity and lightweight design allow the Major to work well in almost all settings.

Safe Working Load: 200kg / 31st

Code	Description
802503	Oxford Major Patient Lifing Hoist - Hydraulic
802504	Oxford Major Patient Lifing Hoist - Electric

OXFORD PROFESSIONAL RANGE

The Oxford Professional Range is the next step up from the Classic Range of steel hoists. Manufactured mainly from toughened aluminium, the hoists are lighter and therefore easier to manoeuvre The Oxford Professional Range was designed with 5 key principles of moving and handling in mind:

- 1 Get close to the load
- 2. Use a wide stable base
- 3. Ensure a comfortable firm grasc
- 4. Keep spine close to neutral
- 5 Make sure movement is smooth

OXFORD PROFESSIONAL ADVANCE

The award winning Advance patient hoist from Oxford signifies a real stride forward in patient lift design and performance. It uses the latest design and manufacturing technologies to ensure the Advance is the most functional and stylish hoist in its class today.

- 155kg/24st safe working load
- Compact and easy to manoeuvre
- Folding design for easy storage and onward transportation
- 4 point cradle option (not shown)
- On-board Smart Monitor diagnostic control box

- Compact Folding Design Unlike other products on the market the Advance needs NO tools or special attachments to achieve its compact folded position. This functionality gives active users the option to travel outside the confines of their own home
- Swan Neck Leg Design The Advance's unique 'swan neck' leg design allows the hoist to get even closer to the widest of obstacles. This is especially useful with large chairs, bulky commodes and wheelchairs
- Oversized Push Handle The oversized handle provides a large surface area from which the carer can position the lift before use

Code	Description
802510	Oxford Professional Advance

OXFORD PROFESSIONAL PRESENCE

The Oxford Presence is a heavy-duty patient lift and is competent enough to handle almost any patient-handling task. It is an all round performer that gives you more than you expect.

- 227kg/35st safe working load
- Outstanding lifting range of 440 1910mm
- Powered leg positioning and 4 point cradle option
- Digital weigh scale and powered cradle options

KEY PRODUCT FEATURES

- Outstanding Lift Range Whether from the floor or onto a high surface the Presence has an astonishing range of movement. The minimum height with the six point spreader bar is just 440mm, which ensures excellent off the floor transfers
- **Greater Spatial Area** The additional space promotes better ergonomics for the carer, as it is possible to interact more closely with the patient. The Presence's unique swan neck leg design also allows the lift to get close to the widest of obstacles. This is especially useful with large chairs, bulky commodes and wheelchairs
- Powered Base The Presence has two powerful electric motors which open and close the legs automatically

OXFORD PROFESSIONAL STATURE

The Stature patient lift, Oxford's flagship product, recognises the true needs of the modern care environment. With a massive safe working load of 227kgs/35st and one of the largest lifting ranges available, the Stature is able to cope with even the most demanding and technical of patient handling situations.

- · 227kg/35st safe working load
- Outstanding lifting range
- Powered leg positioning and 4 point cradle option
- Digital weigh scale option

- Outstanding Lift Range The Stature's incredible lifting range enables it to cope easily with the most critical of daily tasks
- Superior Ergonomic Design The Stature enters a new dimension when it comes to usability. Careful attention to product design ensures correct ergonomic usage, protecting both the patient and carer from injury at all times
- Powered Base Opening and closing of the legs is fully automated and leaves the carer free to focus on the requirements of the patient

PROFESSIONAL STANDAIDS

Our range of standaids can be purchased with complete peace-of-mind as, like our hoists, we call on all our wealth of experience to make sure we only offer equipment that we know is reliable, long-lasting and suitable for your specific requirements. Our customers prove it every time!

INVACARE RPS 350 RELIANT STAND ASSIST LIFTER

The Invacare Reliant 350 Stand Assist is a compact and manoeuvrable mobile lifter that provides safe and comfortable assisted transfers for those with limited mobility or rehabilitation needs. The robust design with a maximum weight limit of 158kg (25st) allows for additional support whilst transferring.

- Multi-adjustable lift boom with a selection of sling mounting points
- Large rear and small front castors to help manoeuvre the standaid into small spaces
- · Lever leg adjustment mechanism for added stability.
- Generous non-slip footplate providing a stable surface for the feet
- Height adjustable knee guard
- Easily dismantled for transport and storage
- An off-board charger and spare battery allow for 24 hour use
- Emergency stop button
- Emergency mechanical descent system
- Anti-entrapment device that stops the boom from lowering if it meets resistance
- · Visual and audible battery recharge indicator

Code	Description
804501	Invacare RPS 350 Reliant Stand Assist Lifter

OXFORD CLASSIC STANDAID

The Oxford Standaid 140 has a revolutionary patented design that enables patients to be quickly and efficiently transferred. Unlike conventional passive sling lifters, the Standaid 140 requires the patient to participate with the lift or transfer thereby encouraging the patient to remain active for longer. The Standaid 140 is also a very useful rehabilitation tool.

- 140kg/22st safe working load
- · Large knee pad for added support

KEY PRODUCT FEATURES

- Large Knee Pad The large padded knee pad provides additional comfort and helps promote safe and secure transfers
- LCD Battery Level Indicator As well as a visual display, the batteries are protected from deep discharge by a low voltage alarm. This will sound when the batteries need recharging and the hand control is being operated
- Leg Adjustment The legs are adjustable using the leg adjuster handle located at the rear of the mast They can be opened to enable access around armchairs, wheelchairs and similar obstacles

Code	Description
802509	Oxford Classic Standaid

OXFORD PROFESSIONAL JOURNEY STANDAID

The Journey standaid from Oxford incorporates the latest design and manufacturing technologies to produce the most compact and portable, folding standaid on the market today.

- 155kg/24st safe working load
- Folding design for easy storage and onward transportation
- Unique adjustable cow horn
- · Compact and easy to manoeuvre
- Smart Monitor diagnostic and service controls as standard
- Removable foot tray

- Unique Adjustable Cow-horn With 3 different cow-horn height options, the Journey can support a wider range of patient heights and sizes ensuring total flexibility for the care-giver
- Compact Folding Design The Journey folds quickly and easily for onward transportation and storage making it ideal in environments where space is at a premium
- Adjustable Knee Pad The Journey's contoured knee pad is height adjustable to ensure the patient feels comfortable and fully supported throughout the transfer

Code	Description
802514	Oxford Professional Journey Standaid

Code	Description
804506	Oxford Professional Elevate Standaid

OXFORD PROFESSIONAL ELEVATE STANDAID

The Elevate was designed specifically to improve the lifting experience as well as promote patient independence. With a massive safe working load and integrated weigh scale, the Elevate is an extremely adaptable and flexible stand aid lift.

- 200kg/31st safe working load
- Integrated digital weigh scale (Class III rated)
- Easy to adjust knee pad and powered leg adjustment
- · Removable foot tray for rehab
- Smart monitor diagnostic and service controls as standard
- · Powered leg positioning

KEY PRODUCT FEATURES

- Integrated Digital Weigh Scale The Elevate's integral weigh scale allows the carer to weigh a patient during the transfer process, saving time and eliminating any potential for patient discomfort
- Adjustable Knee Pad The Elevate's knee pad is adjustable in height (by 178mm) to ensure the patient feels comfortable and fully supported. A retractable safety belt provides additional support for those patients needing further reassurance
- Removable Foot Tray By removing the foot tray and cover, the Elevate transforms into a rehabilitation aid that allows a patient to fully stand

OXFORD PROFESSIONAL ASCEND STANDAID

With its unrivalled range of movement, the Ascend can transfer a patient from a low-seated position to fully extended with ease. Its active lifting motion was specially designed to encourage user participation, which ultimately promotes patient independence and well-being.

- 170kg/26st safe working load
- Compact and easy to manoeuvre
- Powered leg positioning
- Removable foot tray for rehab
- Smart monitor diagnostic and service controls as standard

- Adjustable Knee Pad The adjustable knee pad ensures optimum resident comfort and support during the lift process
- Removable Foot Tray The removable foot tray allows the Ascend to be used as a walking aid - great for patients that need walking rehab or training
- Superior Ergonomic Design Careful attention to product design ensures correct ergonomic usage, protecting both the patient and carer from injury at all times

804502	Oxford Professional Ascend Standaid

KJAERULFF MINI LIFT 125 STANDAID

The Kjaerulff MiniLift 125 is a mobile sit-to-stand lift developed for helping users, as gently as possible, to raise from a seated to a standing position. Used in combination with the right accessories, the user gets support under the feet, for knees and lower legs and behind the back. This provides for a secure and safe sit-to-stand procedure.

KEY PRODUCT FEATURES

- · Only 860mm long x 590mm wide
- Easily adjustable lift arm
- Easily operated
- · Grip-friendly handle
- · Several options for hand placement
- Suitable for users weighing up to 125kg/20st
- Unique, natural sit-to-stand pattern
- Adjustable, soft support for the lower legs
- Low footplate
- Small and convenient
- · Lockable wheels

Code	Description
804505	Kjaerulff Mini Lift 125 Standaid

ABLE ASSIST PATIENT TRANSFER AID

The Able Assist Patient Transfer Aid provides a safe and easy solution for a Carer wishing to transfer a client.

KEY PRODUCT FEATURES

- No electrical components minimal servicing required.
- Substantial robust frame
- Leg-opening Feature adjustable by a footplate
- Enables users to participate in transfers improving muscle tone and is ideal for transferring users from room to room
- Ideal for those users who can raise from a seated position to a standing position
- The user can have their legs supported by the knee brace and hold on to the horizontal bar in front of them
- The 4 wheels, 2 of which have brakes, enable this aid to be manoeuvred easily from room to room
- Can be wheeled directly up to a toilet, with wheels positioned either side of the toilet offering the user more dignity to sit down
- Maximum user weight limit of 185kg

Code	Description
802526	Able Assist Patient Transfer Aid

QUICKMOVE TRANSFER LIFTING UNIT

QuickMove supports and activates the user when rising up to a standing position and during transfers, either standing or sitting, from bed to chair, from chair to chair or to and from the toilet. QuickMove has been developed for users with impaired balance and strength in their legs but the user must have some strength in the arms and must be able to weight bear to actively participate in the transfer.

QuickMove has a stable construction and can manage users weighing up to 170kg/375lbs.

- Small and convenient
- Stimulates a natural movement pattern
- Adjustable buttock cushions that can be angled
- Adjustable lower leg support/knee -brace
- · Adjustable base width
- Accessories for extra support and security are available

Code	Description
805542	QuickMove Transfer Lifting Unit

The Rota Stand SOLO revolutionises sit to stand and pivot transfers. The patented T Bar mechanism in the base allows a sit to stand and pivot transfer to be carried out by a single nurse or carer thus reducing the time it takes to carry out the task as well as halving the cost of having two carers/nurses present during the transfer.

KEY PRODUCT FEATURES

- · Stabilizing bar to allow a one person transfer
- · Height adjustable frame to suit all clients
- Central wheels allow easy positioning of the Rotastand SOLO
- · Large handlebar for a secure grip
- 200kg weight capacity
- The nurse/carer does not need to counter-balance the Rota Stand Solo as the client pulls themselves to a standing position
- The nurse/carer can now assist the client to stand before rotating the client to a new seated position

Code	Description
805008	Rota Stand Solo

ROTA STAND

The Rota Stand has been developed to allow an assisted transfer from one seated position to another. The frame, shin pad and turn table combine to give optimum safety to both carer and patient during the transfer.

The central wheels are a unique innovation, because they allow the Rota Stand to be rolled up to the patient or client even after their feet have been positioned on the product.

KEY PRODUCT FEATURES

- Allows a safe, smooth and controlled swivel transfer
- · Reduces the need to "hold" a patient during a transfer
- Encourages an independent and dignified transfer
- Height adjustable frame to suit all
- Foot pedal break to secure turn-table
- Central wheels for easy positioning
- Angled shin pad for correct standing position
- 160kg weight limit
- · Height adjustable shin pad

Code	Description
805009	Rota Stand

AMBITURN SIT TO STAND TRANSFER AID

Assists with pivoting transfers between different seat surfaces with facility to transport users shorter distances.

- Requires user to pull on handle to stand up and to be weight bearing
- Narrow, recessed front fits between wheelchair wheels and around toilet for perfect positioning
- Low profile base facilitates user feet placement
- Substantial base area provides stability, with rear bar also allowing carer to counterbalance
- Handle has multiple gripping points for varying carer/user support requirements and is angled to enable "nose over toe" standing movement
- Opening on central handle bar allows quick fitting of optional support belts
- 4 front and rear castors combined with 2 x 13cm (5") central wheels ensure effortless manoeuvring
- Foot operated brakes on centre wheels provide stability during standing/sitting movement

Code	Description
805024	Ambiturn Sit to Stand Transfer Aid

RETURN 7500 TRANSFER SYSTEM

ReTurn is a multi-functional, pivoting and transportation platform. It is also a rehabilitation device. For users who still retain some strength, ReTurn stimulates the natural pattern of moving when progressing from sit-to-stand and, at the same time, it also strengthens a range of muscles. This makes it an ideal tool in a rehab unit and a home user can normally manage to remain longer in their own home with the help of just one caregiver.

KEY PRODUCT FEATURES

- The spacing of the gripping bars provides multiple hand placement options for the user
- It features a base plate which makes it possible to change between standard height and low rising ladder for maximum utilization
- The base plate has a low in-step and clear markings for correct positioning of the user's feet
- The leg supports are adjustable both in height and in width. They can also be angled to suit each different user.
- The design of the base plate and the angle of the rising ladder provide space for natural movement patterns and for the caregiver to work close to the user
- Lockable castors
- Low weight and easy to disassemble in two parts, easy to transport
- A specially designed bag protects ReTurn7500 during storage and transportation
- Many accessories for increased security and usability
- Registered by Community Design
- Max user weight 150kg/330lbs

Code [Description
805013 F	ReTurn 7500 Transfer System

ROTA STAND COMPACT

The Rota Stand Compact combines all the benefits of the Rota Stand and the Rota Stand Solo in one product, with the added value of being lightweight (only 10kg) and foldable.

The folding and lightweight nature of the Rota Stand Compact is ideal for community assessments by therapists who often have to lift equipment in and out of their vehicles. Equally, a more independent lifestyle is encouraged for clients who wish to travel to friends and relatives. The Rota Stand Compact fits easily into the boot of a car.

- Foldable compact design reduces storage and transport issues
- Lightweight: easy to manoeuvre and lift in and out of vehicles
- Height adjustable frame and shin pad to suit all clients
- Central wheels allow easy positioning
- Stabilising bar allows a one person transfer
- 200kg weight limit

Code	Description
805019	Rota Stand Compact

OXFORD VOYAGER 420 OVERHEAD HOIST SYSTEM

The core ceiling hoist in the range, the Voyager 420 will satisfy the majority of manual handling requirements with a maximum user weight of 190kg (420lbs/30st).

The Voyager 420 is available in a 2-way (powered vertically, free wheel horizontally) or 4-way model (powered vertically and horizontally). The standard Oxford spreader bar allows use of the full sling range.

KEY PRODUCT FEATURES

- Strong, simple track design that can be installed quickly and efficiently.
 A full range of track options and accessories are available
- · Compact, ergonomic design
- 2 or 4-way models available (powered vertically and horizontally or iust vertically)
- · Audible and visual low battery indicator, ensuring there is always power
- Emergency lower and emergency stop both operated by a simple pull of a chord
- Simple to use handset. Includes return to charge point
- Soft start and stop movement ensures a comfortable transfer
- Oxford spreader bar allows use with full loop sling range
- Integrated charger allows quick and safe installation

OPTIONS INCLUDE

- Infra-Red Remote Hand Control Ideal for tall ceilings, over rehabilitation or swimming pools
- Turntable A 45° or 90° powered version is available providing a perfect solution to multi-direction or multi-room installations
- Gantry System A 2 or 3m gantry system allows the Voyager to be installed where the ceiling is not suitable for the Voyager Fixed Track
- Tracking System Wide range of track options including a 2m or 3m straight track, a 45 or 90 degree bend, x-y system, turntable and a variety of wall and ceiling brackets. The x-y system allows complete room coverage and is perfect for multi-bed environments

Please contact us to request full details and options list.

Code	Description
802599	Oxford Voyager 420 Overhead Hoist System

OXFORD VOYAGER PORTABLE LIFT

The Voyager Portable is the perfect solution for homes who have fixed tracking systems in multiple rooms. This unit is able to be transferred quickly and easily without the need for tools.

- High lift capacity at 200kg SWL (441lbs/31st)
- Lightweight design, enables the carer to transfer the Voyager Portable hoist easily from one room to another
- Soft start and stop ensure the patient is transferred safely and comfortably
- Dual controls coupled with a removable handset allow total flexibility
- Simple trolley allows the Voyager Portable to be used with either the Easytrack or the Fixed track
- Unique quick release strap allows instant repositioning of the hoist, saving time and battery power. Prevent ever having to lift the hoist onto the rail
- Emergency stop/lower and strap twist prevention helps ensure safety never becomes an issue
- The removable, chargeable battery allows 24hour use and ensures the hoist is never out of action
- Audible low battery indicator will help ensure the battery will not run out at a critical moment

Code	Description
805502	Oxford Voyager Portable Lift

OXFORD VOYAGER EASYTRACK SYSTEM

The Easytrack system is a unique overhead portable track designed for the Voyager Portable hoist. It requires no permanent fixings, no structural alterations and can be assembled in as little as 5 minutes by just one person.

KEY PRODUCT FEATURES

- Simple Installation The unique floor-to-ceiling design eliminates the need for specialist fixings, alterations or electrical installations.

 This allows the system to be used permanently, semi-permanently or even temporarily. The Easytrack is the ideal solution when a fixed ceiling track cannot be installed
- Multi-Post Options The 2, 3 or 4 post options allow the Easytrack
 to solve patient handling problems in nearly every room layout. The
 2 post is ideal for a simple lift in or out of a bed, the 3 post for access
 in two directions and the 4 post for complete coverage
- Portable Kit The lightweight aluminium Easytrack comes in a
 portable kit form that can be easily transported along with the
 Voyager Portable hoist. A useful carry bag is available for both the
 Easytrack and Voyager Portable
- Footprint The small feet of the Easytrack allow use even in the smallest bedroom or bathroom where a conventional floor lifter could not be manoeuvred
- Easy-Glide Rail The unique design of the telescopic rail ensures that nearly any patient can be transferred without strain or risk of back injury
- Rotating Rail Connection This allows the rail or post to be positioned at any angle, no matter how close to a wall or obstruction
- Extending Rail Unlike regular gantry tracks the Easytrack can be extended to suit different locations as and when they are required. The track can be extended when in position to allow adjustment and then reduced to enable easier storage or transportation
- Telescopic Post Allows the Easytrack to be use with a variety of ceiling heights
- Safety Systems A multitude of unique safety systems have been incorporated into the Easytrack to ensure peace of mind. These systems include preventing the post losing grip if the floor or ceiling flexes, preventing the post being lowered if the rail is still connected or the rail disconnecting from the post

OXFORD VOYAGER EASYTRACK FS SYSTEM

The Easytrack FS is a lightweight, free-standing portable overhead track system, based on many of the same principles as the standard Easytrack range. Unlike the existing Easytrack system, the Easytrack FS does not rely on support from the ceiling thereby removing any potential structural issues that may be encountered.

KEY PRODUCT FEATURES

- Maximum User Weight Limit 200kg (441lbs/31st).
- Lightweight Components ensures ease of storage and transportation
- Self-Locating Posts require no additional tools or fixings
- Telescopic Adjustment incorporates telescopic post and track adjustment for ease of use
- Spring Loaded Posts so that the height can be adjusted effortlessly
- Auto Locking Mechanism posts automatically lock into place once adjustment has been made
- Carry Bags and the Easykart optional accessories to aid both transportation and storage

Please contact us to request full details and options list.

OXFORD DIPPER BATHING HOIST

The Dipper is for use at swimming pools, therapy pools and quayside locations with a specification that is highly functional and easy to use. Its design assures full integration with the pool or quayside environment.

The market leading Dipper is a proven, reliable and safe method of gaining access to the water and has a weight capacity of 140kg (22st).

The Dipper hoist can be used either with a spreader bar and sling arrangement or the Ranger transporter chair. For maximum flexibility when installing, the Dipper is available with 3 floor fixing options. This ensures the Dipper is suitable for use in any location.

Please contact us to request full details and options list.

Code	Description
114275	Oxford Dipper Bathing Hoist

OXFORD MERMAID BATH HOIST

The Mermaid hoist is a fixed bath-side hoist that enables patients to safely transfer in and out of the bath. The Mermaid is available in both electric and manual versions and can be fixed either to the side or end of the bath. The Mermaid can also be used with either a fixed seat option or the Ranger transporter system. The Ranger transporter system provides easy access to bath-side or pool-side locations. It can also be used as a toileting aid and comes with several options.

KEY PRODUCT FEATURES

- Electric or manual options
- Wooden and concrete floor fixings are supplied as standard
- Optional side or end fit configuration, safety arms, commode seat and electric retro-fit
- Fixed seat or Ranger transporter system
- Emergency stop/emergency raise (electric option)
- Detachable battery pack (electric option)
- Hand control (electric option)
- 125kg Safe Working Load

Please contact us to request full details and options list.

AQUATEC ORCA BATHLIFT

The Aquatec Orca is a superior quality and durable bath lifter that is designed to offer comfort, safety and reassurance to those most in need of support as they bathe. The Orca incorporates increased leg room, ease of disassembly and an ergonomic, floating hand control that contains the light weight battery. The Orca has an impressive weight limit of 144kg (22st) as standard.

KEY PRODUCT FEATURES

- Compact hand control with integral battery The Orca bath lift incorporates a revolutionary lightweight battery contained within the ergonomic hand control. Raised profile, coloured buttons and an emergency stop feature allow simple, controlled operation to give reassurance and independence
- Safe hand control fitting The hand control connects within seconds to the back of the Orca, providing a secure and completely watertight seal. Effortlessly released with just one hand
- Two-piece design When pushed forward the Orca's backrest folds down and automatically unlocks. The backrest and base section can then be removed from the bath with ease. The 2 sections fit neatly into one another to give an extremely compact size for storage
- Textured seating surface The Orca has a textured surface allowing use without covers if desired The side flaps are hinged flush to the main seating surface and allow comfortable and safe side transfers, without entrapment of skin
- Easy to clean The open, clean-cut design of the Orca combines with its smooth surfaces to offer effortless cleaning

Code	Description

- Invacare Range: Our standard and most comprehensive range offering great slings at low prices in a range of fabrics
- Oxford Range: Premium quality slings offering greater patient comfort
- High Easy Dual Fix Range: Suitable for use with clip fixing hoists as well as standard spreader bars
- Disposable Range: Designed to be used multiple times with one patient for ultimate infection control

CLH EMBROIDERED LABEL SLINGS

It is a legal requirement in the industry that each sling manufactured carries its own identification number and carries the following essential information:

- Model reference number
- Image identification
- Sling type and size
- Manufactured date
- All testing and certification marks (CE or similar)
- SWL Maximum Load
- Barcode and inspection label
- Individual barcode, serial number and batch number

If the sling loses its label, or the label can no longer be read due to fading, then the sling should NOT be used.

We are now able to offer a sling range that has fully embroidered labels containing all this vital information ensuring there is no chance of fading over time, thus greatly increasing the longevity of the sling.

INVACARE SLING FABRICS

SOLID POLYESTER

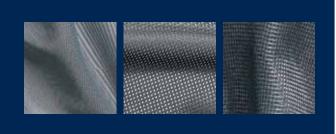

A standard material that is easy to apply - slides smoothly and dries quickly after washing.

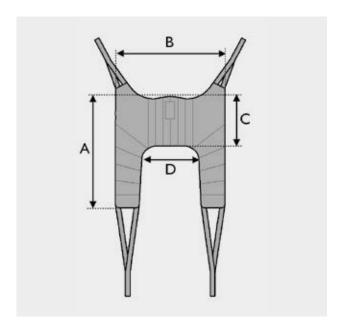

NET

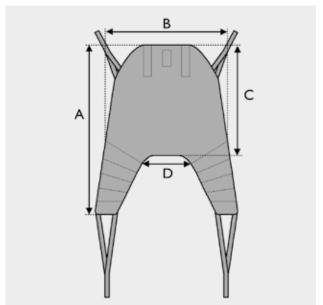

Used for bathing or if the user will stay seated on the sling for a period of time.

SPACER

A slightly elastic fabric that adapts to the user's body shape. Well suited for those with skin integrity issues.

INVACARE UNIVERSAL STANDARD SLING

Supports the whole body; including the shoulders.

This sling should only be used for those who have good head control. The Universal Standard Sling is often preferred as an all-round sling for the elderly, as it supports the entire body and gives the client a feeling of comfort as well as an unobstructed view. This sling can be used for seated to seated transfers and is easy to apply. This model also has a stiffened fabric in the back section, to ensure optimal weight distribution and comfort for the client. Available in polyester, net or spacer fabric.

X-Large	803037	803048	803040

INVACARE UNIVERSAL HIGH SLING

Supports the whole body including the head giving the client a comfortable and slightly reclined position. The Universal High Sling is typically used for those who have limited control of the head, trunk or hips, or for transfers to and from a lying position. The Universal High Sling can also be used for seated to seated transfers. The head support can be taken out by simply removing the plastic rigidisers. Available in polyester, net or spacer fabric.

- 1 INVACARE COMFORT SLING
- 2 INVACARE COMFORT TOILETING SLING

1 & 2. INVACARE COMFORT /TOILETING SLING

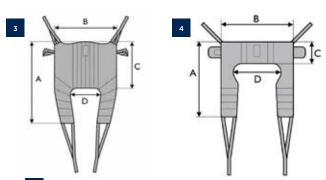

This sling supports the whole body and the head.

The Invacare Comfort Sling is ideally suited to those who have chronic pain. The sling is also useful for above knee amputees, or for those who due to postural position or pain prefer to remain in a seated position.

The Comfort Sling is applied while the client is lying down, and is used to transfer the client into a seated position. The Comfort Sling with Toilet Opening is applied in the same way and is used for toileting.

INVACARE STAND ASSIST STANDING SLING

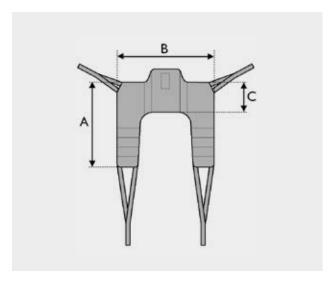

Designed for use with the Reliant 350 lifter, but compatible with other types of stand assist lifter, the Invacare Stand Assist Sling offers a comfortable and safe transfer for clients who have some weight bearing ability, but cannot stand independently. In addition, the client should be coherent, have good body and head control and the ability to grip the lift boom during the transfer. The sling is well padded and comes with non-slip material on the back to ensure a comfortable transfer position.

- Solid polyester fabric only

HIGH EASY PADDED DUAL FIX SLING

The Standard High Easy sling in Polyester has Clip and loop Fixings for hoists with stud and standard loop fitting spreader bars. The Standard High Easy Range of Slings, with tailored commode and shoulder areas which give additional comfort, have been designed to suit stud fixing hoists, and also provide a good design of sling that can be used on a standard spreader bar.

Code	Description
801516	High Easy Padded Dual Fix Sling - Small
801515	High Easy Padded Dual Fix Sling - Medium
801518	High Easy Padded Dual Fix Sling - Large
801517	High Easy Padded Dual Fix Sling - X Large

HIGH EASY TOILETING DUAL FIX SLING

The Hi Easy Toileting Sling has dual fixings meaning it will suit stud fixing hoists as well as providing a good design of sling that can be used on a standard spreader bar. The style of the sling is designed to enclose the client, and the hooded head support will provide a safe hoisting position when the client is reclined. Additional darting around the commode aperture gives a more comfortable fit for your client.

OXFORD SPECIALIST SLING RANGE FEATURES

KEY PRODUCT FEATURES

- Coloured loop straps that provide adjustment and the correct angle positioning for the spreader bar system
- Clear labels provide all the information required together with a line drawing showing how our slings fit
- Leg support widths offer optimal support, while not cutting into the knee or groin area, and modesty loops stop the patients legs from splaying while transferring
- Centreline markers aid the carer in the correct positioning of the sling, especially when inserting the sling before an off the bed or floor transfer.
- The angles of the straps are carefully calculated to ensure the correct posture, correct handling and comfort of the patient
- Oxford`s standard range of slings are made from polyeste making them durable yet comfortable
- Net slings are ideal in wet environments, providing rapid draining and drying
- Padding provides additional comfort and support to delicate areas and our webbing straps have covered ends to protect patients skin
- The grey colour of our standard polyester slings means contamination is easy to spot but the polyester fabric is not prone to staining, and is easily laundered.

OXFORD QUICK FIT DELUXE

This sling is a development of the Quick Fit design and is suitable for 95% of patients. It can be used for amputees following assessment.

Size	Polyester	Polyester Padded	Net
Small	803510	803511	803512
Medium	803513	803514	803515
Large	803516	803517	803518

OXFORD QUICK FIT UNIVERSAL

This sling is an easy-to-fit generalpurpose sling designed to suit 85% of patients.

Size	Polyester	Polyester Padded	Net
Small	803501	803502	803503
Medium	803504	803505	803506
Large	803507	803508	803509

OXFORD ACCESS TOILETING

This sling is designed specifically to facilitate the toileting procedure by allowing the removal of clothing. It is not a general-purpose sling and will suit only 25% of patients. Patients must be in a sitting position to use this sling.

Size	Polyester Padded
Small	803540

Large	803526	803527	803532	803533

OXFORD STANDING SLING

The standing sling is suitable for those patients who have a greater degree of weight bearing ability. It allows excellent access for toileting and features an adjustable strap and a non-slip back pad to ensure the sling does not ride up during the transfer.

Size	Polyester Padded
Small	803535
Medium	803536
Large	803534

OXFORD FULL BACK

This is a more specialised sling. It incorporates integral boned head support and padded leg pieces. The correct size will fit snugly and give full protection for patients who go into extension or have involuntary movements or behavioural issues. A disposable version is also available.

NOTE: DO NOT WASH DISPOSABLE SLINGS.

Washing will compromise the integrity of the sling and make it unsafe for use.

Size	Full Back	Full Back Disposable

802005	Maxi Plus Deluxe	36 - 60"

LOCOMOTOR EXTENSION STRAP

Extension straps are available to allow a lateral transfer (from bed to trolley etc.) helping the user(s) to achieve a better posture during the transfer.

Code	Description
804019	Locomotor Extension Strap

QUICKMOVE BACK SUPPORT BELT

This Back Support belt is an accessory which can be used as torso/side support for the QuickMove. It provides extra stability and security for the users during transfers with QuickMove. After adjusting the length to the user, the back support is placed behind the back of the user and simply attached to each side of the QuickMove.

• One size

Code	Description
805543	QuickMove Back Support Belt

HANDLING SLING

A comfortable, padded handling sling which can be used for standing transfers, repositioning in bed and leg transfers. The design allows for greater patient comfort as well as allowing staff to retain good posture when carrying out the handling task. The sling can also be used to move legs on and off a bed or a foot stool.

• Sizes: 62cm X 22cm Handling Sling

Code	Description
802006	Handling Sling

AMBITURN TRANSFER AID BELT

The Ambiturn Transfer Aid Belts are specifically designed for use with the Ambiturn Sit to Stand Transfer Aid.

Available in sizes: small, medium and large

Code	Description
805025	Ambiturn Transfer Aid Belt - Small
805026	Ambiturn Transfer Aid Belt - Medium
805027	Ambiturn Transfer Aid Belt - Large

Made from Neoprene material to allow for use in swimming pools and other wet environments.

• Size: Small - Medium

Code	Description
802600	Silvalea Neoprene Wet Transfer Belt

SELECT LEG RAISER

For those who cannot raise their legs into bed or onto a footstool, the leg raiser incorporates a foot stirrup which can be placed over the foot by the user and a long rigid handle which allows the user to raise the leg without the need to bend.

Length: 103cm

Code	Description
802008	Select Leg Raiser

TUBULAR SLIDE SHEETS

The tubular range of re-usable slide sheets allows three basic patient handling tasks without the need to lift and without the risk of sheering to the patient's skin.

KEY PRODUCT FEATURES

- Turning a patient: For x-ray, surgical procedures, recovery, pressure care, change of dressing or cleaning
- Sitting a patient up in bed: for feeding or relief of chest pain, etc
- Moving a patient on or off a bed, trolley or examination couch without painful sheering to the buttocks

Code	Description	Size (cm)
804001	Standard	122 x 71
804002	Long	145 x 71
804003	Wide	122 x 100
804004	Compact	72 x 70
804005	Maxi	195 x 70
804010	Maxi Plus	195 x 140
804011	Mini	60 x 41
804012	Extra Long	200 x 71

FLAT SHEETS

Developed as an alternative to using tubular slide sheets, the Flat Sheet incorporates a number of handholds, which allows a positive grip when carrying out a patient handling task. The Flat Sheet can be used singularly or in pairs and enjoys the same low friction qualities as the Ultra Slide sheets.

Extension straps are available to allow a lateral transfer (from bed to trolley etc.) helping the user(s) to achieve a better posture during the transfer.

Code	Description	Size
804013	Flat Sheets - Standard	200 x 75cm
804014	Flat Sheets - Wide	200 x 100cm

QUILTED UNI SLIDE

Available in two sizes, the Uni Slide prevents patients from sliding down in a chair or in a bed. The Uni Slide allows a one directional slide (back into a chair or up in a bed) then locks, preventing the patient sliding forward.

This reduces the amount of patient handling required to reposition the patient and thus reduces the risk of back injury to the nurse or carer associated with these tasks.

Code	Description	Size
804017	Quilted Uni Slide Chair	90 x 40cm
804025	Quilted Uni Slide Bed	160 x 70cm

S.U.P.A. SLIDE STANDARD

Select • Universal • Positioning • Aid

The S.U.P.A SLIDE is designed for multi-use with the same patient and to be disposed of when soiled or no longer required by that patient. The S.U.P.A SLIDE is provided on a roll of a hundred sheets, in a box that acts as a dispenser, ready to use, in pairs, one on top of the other, or singly, by simply folding in half to form a tube.

• Size: 200 x 75cm

Code	Description
804015	S.U.P.A. Slide Standard

TURN EASY SHEETS

Turning a patient in bed can sometimes be difficult, but with the help of the Turn Easy Sheet System with its low friction satin surfaces, things are different.

The system comes with a Fitted sheet and a Draw sheet which both remain in place under the patient. The two low friction satin surfaces work together to enable a carer to turn/roll or move the patient up or down the bed and side to side (4 Way). The Fitted sheet comes with or without loops for use with a dynamic air mattress.

- · Compliant with tissue viability requirements
- Compliant with moving and handling requirements
- Made in the UK and fully hot washable
- Draw Sheet is 200 x 145cm
- Fitted sheet fits a single mattress and is available for use with a static or a dynamic mattress
- Excellent value when compared with similar products

Code	Description	For Use With
702567	Single Fitted Sheet + 4way Draw Sheet	Static Mattress
702568	Single Fitted Sheet with loops + 4way Draw Sheet	Dynamic Air Mattress

WENDYLETT SLIDE SHEET SYSTEM

Facilitates turning in bed

WendyLett base sheet is a white and grey striped satin sliding sheet that is available in many different sizes. The sliding takes place sideways along the direction of the stripes.

A wonderful satin sliding sheet

WendyLett is intended for users who have difficulties turning in bed. The smooth and silky central part, enables turning with minimal effort. Sliding sideways is made easy without risk of sliding off the bed by the anti-slip material at both sides of the sheet. The material also prevents the user from sliding down in bed.

WendyLett sliding sheet is bedded in the bed like a normal sheet, with the smooth surface in the middle of the bed. For users who need more assistance, WendyLett can be combined with WendyLett2Way drawsheet or WendyLett4Way sliding drawsheet.

The WendyLett family consists of three different WendyLett sheets:

WendyLett is a satin sliding sheet and a base sheet to be combined with:

- WendyLett 2Way, a drawsheet for sliding sideways or
- · WendyLett 4Way, a sliding drawsheet for multi-directional sliding

A comfortable functional material

The WendyLett sheets are made of a mixed material fabric. Wonderful, smooth cotton provides for comfort while strong and smart polyester ensures functionality and durability. The quality of the fabric is continuously and carefully monitored with regards to strength, durability, burls, washing properties and non-inflammability.

Communicating and self-instructing design

The colours and patterns of the fabric in the WendyLett sliding and drawsheets are designed to indicate the function of the sheet and thereby also the needs of the user. White and grey stripes and checked patterns communicate in which direction sliding is facilitated and how the sheet should be used. The design also makes the sheets easy to distinguish in the laundry. And, on top of this, the WendyLett sheets look really good.

A transfer aid which prevents pressure-related sores

Using WendyLett, small transfers, turning and positioning of users in bed can be performed without friction and shearing damage of the skin of the user. The sheets are made of a very fine material and can favourably be placed on top of a pressure-relieving mattress without compromising the pressure-relieving properties of the mattress. In order to provide the user with maximum comfort, we have also eliminated all seams across the sheets and made the joint seams of different functional materials

WendyLett sheets are sold in packs consisting of 2 sheets - a Base Sheet and a 2Way OR 4Way Sheet. Single Sheets are also available, please call 01392 823233 to order.

Code	Base Sheet	2Way/4Way Top Sheet

804519	140 x 200cm	140 x 200cm
804520	200x200cm	140 x 200cm

TRANSFER SLIDE BOARD

The low friction surface of the transfer slide allows for a smooth effortless transfer. The advanced construction gives a rigid surface that will withstand weights up to 20st (127kg) without bending and yet is extremely lightweight and easy to pick up and carry. The plastic construction of the transfer slide gives a wipe-clean surface that will not solinter or deteriorate in use.

- Available with or without handles
- Size: 66 x 20cm
- Weight Limit: 127kg.

Code	Description
804006	Transfer Slide Board
804007	Transfer Slide Board with Handles

LATERAL TRANSFER SLIDE

The Lateral Transfer Slide has a smooth surface and non-slip base allowing a patient to be moved from one surface to another without the need to be lifted. Used in conjunction with the Transfer Sheet (also pictured), correct posture during the transfer is maintained. The Lateral Transfer Slide has tapered edges to allow for easy insertion and removal.

Code	Description
805012	Lateral Transfer Slide

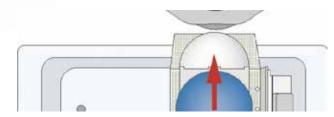

DELUXE TRANSFER SHEET

Used in the same way as the Transfer Sheet, the Deluxe Transfer Sheet incorporates a series of extra handholds which allows for more precise positioning of a patient during a transfer. The extra handholds also increase control during the handling task by enabling staff to maintain correct posture during the transfer.

• **Size:** 190 x 100cm

Code	Description
805016	Deluxe Transfer Sheet

AQUATEC TRANS SWIVEL & SLIDE TURNTABLE FOR BATH LIFTERS

Compatible with the Aquatec range of bath lifters.

- · Large comfortable seating surface
- Safe: turntable is only unlocked by the weight of the user
- Seat surface turns and slides easily
- Soft, Skin-Friendly Cover: easy-care, wipes clean

Code	Description
705032	Aquatec Trans Swivel & Slide Turntable for Bath Lifters

TRANSFER SHEETS

A full body-length sheet with six long handholds which can be used with the Lateral Transfer Slide (also pictured) to aid sliding transfers between two surfaces. The long handholds eliminate the need to bend and stretch to affect the transfer. The Transfer Sheet can also be used in an emergency situation when a patient has fallen on the floor where a hoist is unavailable or inappropriate.

Weight Tested: 127kg/20st. Size: 190 x 100cm

804021	Transfer Sheet

	SUATION SUEET
EVAC	CUATION SHEET
(FOR	STATIC MATTRESSES)

The Harvest Fire Evacuation Sheet is designed to be used in conjunction with standard foam mattresses. During evacuation the straps are secured round the mattress and patient who is then evacuated to safety. This sheet features a silicone coated side to aid swift and easy movement of the device across all surface types. The red polyester fabric is Fire Retardant and extremely strong and has been internally tested.

Code	Description
804023	HH Evacuation Sheet (For Static Mattresses)

EVACUATION SHEET (FOR AIR MATTRESSES)

This Fire Evacuation Sledge Sheet is designed to take an active air mattress. In the event of an evacuation the service user is secured to the mattress using the straps on the evacuation sheet and evacuated to safety along with the maattress. Care in selection is needed when purchasing the mattress for this 'ski pad' as not all mattresses will fit through a doorway whilst fully inflated.

Suitable for both Replacement & Overlay mattresses.

EVACUATION MATTRESS (INC. WALL MOUNTABLE BAG)

This extremely popular 'ski pad' sledge product includes a storage bag and is designed to be mounted on a wall until needed. The Wall Mounted Evacuation includes a 50mm foam base to support the patient during evacuation. During evacuation the patient is placed on the mattress, secured using the straps provided and evacuated to safety.

All Materials are fire retardant and internally tested for strength.

Code	Description
804026	HH Evacuation Mattress (Inc. Wall Mountable Bag)

PADDED ROTA CUSHIONS

A soft, padded, flexible turning disc ideal for use on car seats, chairs and beds. The Rota-Cushion allows a smooth swivel transfer without painful jarring and twisting.

Available in two sizes (380 and 450mm)

Code	Description	Size
805006	Padded Rota Cushion - Standard	380mm
805010	Padded Rota Cushion - Large	450mm

DUO TRANSFER SLIDE DELUXE

Available with or without handles, the unique design of the Duo Transfer Slide allows for an angled transfer as well as a straight transfer from one seated position to another.

The hand grips at either end of the deluxe model give the user a means of pulling themselves across the smooth surface while at the same time ensuring the Duo Transfer Slide is securely located during the transfer.

- · Allows straight and angled transfers
- · Hand grips allow extra security for the user
- · Low friction surface that will not crack or splinter
- Totally hygienic construction
- Weight Limit: 150kg

Code	Description
804016	Duo Transfer Slide Deluxe

SELECT TURNTABLES

Available in two sizes (300 or 380mm diameter) and with a fabric or plastic surface, the locomotor turntable allows patients/clients to be moved from bed to chair/wheelchair or commode safely. The turn table eliminates the need to shuffle a patient's feet round to the required position, instead the patient is rotated smoothly and safely with minimal effort which greatly reduces the risk of loss of balance and injury to both patient and carer.

- Non slip base
- 4 Cushioned surface
- Extremely lightweight and portable (0.3kg)

Code	Description
805002	Select Turntables - Fabric 300mm
805003	Select Turntables - Fabric 380mm
805004	Select Turntables - Plastic 300mm
805005	Select Turntables - Plastic 380mm

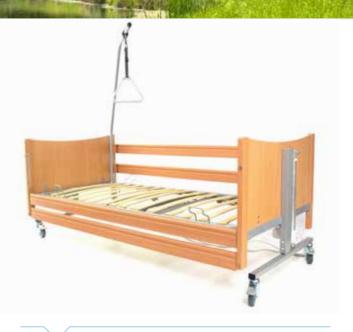

CASA MED ELECTRIC BED RANGE

This excellent range of beds has been in use throughout care homes for years. This is simply because there is no other bed that can meet the needs of the patient, the carer and the owners quite so effectively as the Casa Med

CASA MED DELUXE SE ELECTRIC BED

With its beautifully finished beech-effect head and foot boards, the Casa Med SE Deluxe is ideal for creating a homely feel. It also offers everything for comfort and safety with its integral side rails and varying bed height options.

KEY PRODUCT FEATURES

- Electric back rest, leg rest, knee brake and lower leg elevation
- Four braked castors
- Four section metal mesh mattress support (contrary to image shown)
- Tool free assembly and dismantling
- Height adjustment: 40 80cm
- Max user weight: 140kg (22st)

Code Description

703571 Casa Med Deluxe SE Electric Bed

CASA MED CLASSIC FS ELECTRIC BED

Offering an attractive and non-clinical finish, this bestselling bed is beautifully finished with enclosed motors and curved beech-effect head and foot board, complete with integral side rails.

KEY PRODUCT FEATURES

- Electric backrest, leg rest, knee brake and lower leg elevation
- Emergency lowering by quick action bolt mechanism
- Four brake castors
- Four-section mattress support
- Metal mesh base
- Quick-release pins on all actuator points
- Extra high side rails available
- Tool-free assembling and dismantling
- Transport system and lock
- Real wood surrounds.
- Height Adjustment: 40-80cm
- Maximum User Weight: 140kg (22st).

Code	Description
703502	Casa Med Classic FS Electric Bed

CASA MED SUPREME CLASSIC FS ELECTRIC BED

The Supreme profiling bed has been designed to take a greater depth of mattresses in order to comply with current regulations. With three integral side rails there is no need to fit side-rail extensions. The top rail can also be lowered if the extra height is not required.

- 3 integral rails to cover greater mattress depth
- Designed to be used with Full Replacement Air Mattresses or overlay mattresses on an underlay mattress meeting a total mattress height of at least 8"
- Sturdy mesh mattress support
- 8 button handset
- Top rail can be separately lowered if required
- Bed height adjustment: 33 73cm
- Distance from top of rail to mattress support: 55cm
- Enclosed head and foot end motors
- Four lockable castors
- Easy to install, no need for tools

With its beech finished enclosed head and foot boards, this bed is attractive and provides a homely feel to any room.

REPOSE AIR MATTRESS OVERLAY

- Mattress comes neatly packed inside a plastic manual pump no electrics required
- Low air technology distributes weight evenly and doesn't lose shape
- Designed to relieve pressure on soft tissue areas and provide comfort
- Lightweight for easier transport
- Easy to clean and will deflate down to a compact size
- Inflated dimensions: L1870mm x 770mm
- Max User Weight: 139kg

Code	Description
111074	Repose Air Mattress Overlay

INVACARE SOFTFORM PREMIER ACTIVE CARE HYBRID MATTRESS SYSTEM

This clinically proven mattress offers a 'Very High Risk' high specification static surface. Should a patient require stepping up to a dynamic surface, the discreet pump can be fitted to the air insert, transforming the mattress into an alternating surface, delivering additional levels of pressure relief. There is no requirement to transfer the client, thereby minimising any discomfort and reducing manual handling.

- Foam cell design The cells offer a stable support surface for the patient. The advanced material used on the underside of the insert allows the foam to glide over the inner air cells with ease
- Channels in Blue foam U core The tubes that supply air to the cells sit into securely designed channels, providing added comfort for the patient
- Cost saving construction The top cover, bottom cover, foam insert, Blue U core and air cells are all easily replaceable
- Digital Pump The digital pump features an LCD screen and audio alarm
- Intelligent software The pump can identify and advise the status via the LCD screen
- Very High Risk static mattress In the event of a power failure, the patient is still resting on a 'Very High Risk' pressure reducing surface
- Larger Brackets The pump has been designed to accommodate a wide range of bed ends with its larger brackets
- 2 year warranty For peace of mind

ALERTA EMERALD OVERLAY AIR MATTRESS SYSTEM

The Emerald Overlay by Alerta is an overlay alternating pressure relieving mattress system with 5" air cells for effective prevention and treatment of patients at medium to high risk of developing a pressure ulcer in hospital, nursing and care home environments.

The Emerald has settings and functionality which are simple to use, thus enabling the care provider to quickly set up the mattress system and have it operating at optimal pressure for a specific user with ease. This model is highly versatile and cost effective due to its wide range of features, and has been manufactured to comply with the most stringent quality and in-use guidelines.

The Emerald incorporates cutting-edge SensaCare Truflo Technology - constant auto pressure sensing through an air sensor and microcomputer regulator to provide ultra-low interface pressure and promote an even ambience for natural sleep patterns and stable blood circulation with Ultra-Silent pump operation.

TECHNICAL SPECIFICATIONS

- Medium High Risk
- · Nylon TPU coated cells
- · Independently removable cells
- Covert sealed air cells
- · Micro-perforated cells
- · Branded cells
- Pillow function
- · CPR release
- 360° degree zipper
- Anchoring straps

This ring shaped cushion can be used on most commodes or toilet seats to provide comfort. It is covered in pale blue waterproofed cotton and has a soft, flame retardant filling.

- External Diameter: 406mm (16")
- Internal Diameter: 270mm (10½")

Code	Description
702538	Polycore Commode Ring Cushion

GEL COMMODE CUSHION

The Gel Commode Cushion, with removable central pad, is made from viscoelastic gel - with highly elastic properties.

- Medium Risk
- 100% permeable (waterproof)
- Size: 400 x 400mm
- Max Weight: 120kg

Code	Description
702500	Gel Commode Cushion

INVACARE FLO-TECH CONTOUR CUSHION

- For those 'At Risk' of developing pressure sores
- Moulded foam with a contoured seating surface
- Multi-stretch, water resistant and vapour-permeable cover with an anti-slip base
- Standard size of 17"x17" but available in a wide range of sizes upon request
- Max user weight: 152kg

Code	Description
703021	Invacare Flo-Tech Contour Cushion

INVACARE FLO-TECH SOLUTION CUSHION

- For those at 'Very High Risk' of developing pressure sores
- Low profile slimline contoured foam base with a dual layer of gel sacs over the entire cushion surface
- Greatly enhanced pressure reducing qualities with the gel surface redistributing pressure away from bony prominences
- Multi-stretch, water resistant and vapour-permeable cover with an anti-slip base
- Standard size of 17"x17" but available in a wide range of sizes
- Max user weight: 140kg

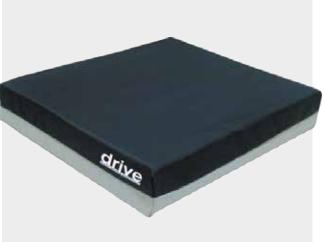

Code	Description
703028	Invacare Flo-Tech Solution Cushion

INVACARE FLO-TECH IMAGE CUSHION

- For those at 'High Risk' of developing pressure sores
- Slimline contoured foam and gel combination cushion offering improved stability and postural support
- Multi-stretch, water resistant and vapour-permeable cover with an anti-slip base
- Standard size of 17"x17" but available in a wide range of sizes
- Max user weight: 140kg

Code	Description
703036	Invacare Flo-Tech Image Cushion

DRIVE GEL SEAT CUSHION

This gel cushion is pressure reducing, designed to assist in the prevention and treatment of pressure ulcers.

The cushion is made with viscous gel which provides maximum support and comfort. It also has a fire retardant foam shell and the cover has a waterproof nylon top and non-slip vinyl bottom with a carry handle.

• Maximum user weight: 18st (115kg)

Code	Description
702512	Drive Gel Seat Cushion

Duoform is an innovative cushion, with a multi-bearing surface made from high density foam and gels.

The multi-bearing surface ensures a greater pressure distribution through shifting pressures away from areas with low bearing capacity towards high weight-bearing capacity areas.

- Medium to High Risk
- Anatomical shaped foam, moulded with the gels, increases the contact surface and maximises pressure reduction
- The cushion's shape also provides greater stability, comfort, and prevents sliding forward when seated, overall improving positioning
- Cushion cover features an anti-slip base to avoid unintentional cushion movement. The cover is breathable yet impermeable to liquids so is suitable for all users including those with incontinence
- 100% permeable (waterproof)
- **Size:** 420 x 420 x 80mm
- Max Weight: 110kg

Code	Description
702556	Systam Duoform Gel and Foam Seat Cushion

SYSTAM VISCOFLEX RISK FOAM CUSHION

Anatomically moulded cushion made from viscoelastic foam with memory effect.

- High to Very High Risk
- Precisely moulds to the body ensuring maximum surface contact with the cushion
- Better pressure distribution: reduction of transcutaneous pressures in the areas at High to Very High Risk and facilitates blood circulation
- Improved comfort and stability of the patient
- The skin effect of the moulded foam gives protection from tearing or crumbling
- Complete with vapour permeable cover (waterproof)
- Ultra light
- Size: 420 x 420 x 80mm
- Max Weight: 110kg

Code	Description
702514	Systam Viscoflex Foam Cushion

SYSTAM MIXTE GEL AND FOAM CUSHION

- Medium to High Risk
- Combination of visco gel and high resilience foam
- Reticulated polyurethane gel avoids migration and thus prevents penetration (punching) of the cushion
- High resilience foam base improves support to the bony protuberances, providing better distribution, comfort and stability
- The two gel and foam layers are permanently bonded together eliminating the risk of separation
- 100% permeable (waterproof)
- Size: 400 x 400mm
- Max weight: 90kg

Code	Description
702506	Systam Mixte Gel and Foam Cushion

SEDENS 500 PORTABLE ALTERNATING SEAT CUSHION SYSTEM

Fully portable dynamic seat cushion.

KEY PRODUCT FEATURES

- 10, 15, 20 minute cycle time
- Portable with battery run pump
- 5 comfort settings ranging from 1 5
- 4 cell dynamic cushion
- · Suitable for all standard size chairs and wheelchairs
- Lightweight and portable. Two-way stretch waterproof cover
- Non-slip base and easy to clean
- · Constructed from high quality durable materials
- Takes approximately 40 seconds to inflate
- Maximum patient weight: 19st (125kg)
- **Size:** 43 x 43 x 10cm

ADDITIONAL FEATURES

- Ergonomically designed foam front section for leg support
- Long pipe connection
- · Storage pocket for temporary storage on seat
- · Long fixing straps on pump to fix to seat
- AC/DC adaptor to charge unit

MOBICARE AIR ALTERNATING SEAT CUSHION SYSTEM

Anti-decubitus air cushion system. MobiCare is a mobilised air alternating pressure relief cushion designed to provide the same therapeutic function on the go without compromise. MobiCare is a great accessory to go with an air mattress system to provide patients a full range of choices in any environment.

- Power Indicator
- Comfort Knob
- Foam Base: Integrated 2" foam base provides additional protection in case of power outage
- Skid proof pad to stop cushion from possible sliding
- Quick Release Coupling: Easy connection between power unit and seating cushion
- Max User Weight: 100kg
- Pump and cushion sold separately if required

MANGAR ELK EMERGENCY LIFTING CUSHION

The Elk is a compact, battery powered lifting cushion. If someone falls over they can shuffle on to the cushion, or be rolled on from the recovery position and assisted to sit upright. The Elk can then be inflated at the touch of a button with someone supporting the individual from behind to bring them to a raised seated position ready to stand.

KEY PRODUCT FEATURES

- Designed to be used with the help of a carer the Elk emergency lifting cushion can be used in the tightest of spaces
- Lifts up to 70st (450kg)
- Portable weighs just 3.6kg and folds up for easy carrying.
- Applicable for any age
- Simple to use
- Minimises moving and handling risk protects carers' backs.
- Suitable for indoor and outdoor use

MANGAR BATHING CUSHION WITH COMPRESSOR

Lowers the patient down and raises them back up again - all at the touch of a button. The Bathing Cushion is ideal for those who have difficulty getting in and out of the bath and perfect if they have reasonable upper body stability.

Whilst at the bottom of the bath you can choose whether to keep some air in the cushion to provide a supportive backrest, or release it all to lie right back for a completely natural bath.

- Enables you to lie right down at the bottom of the bath
- Portable, lightweight and very stable
- Extremely comfortable
- No expensive bathroom alterations
- Fitted or removed in seconds
- Battery operated no dangerous power cables
- Fully waterproof hand control
- Safety feature: will only lower you into the bath when there is sufficient battery power to raise you back up again
- Lifts up to 150kg (24st)

ALERTA FLOOR+ NURSE CALL ALARM MAT

The Floor+ alarm mat is for use on the floor and provides a distinguished cushioned feel for the care environment and is an ideal solution for situations where a dementia resident would otherwise avoid the mat.

With a simple 'plug-and-play' system, the care giver can quickly set up the alarm mat and have it operating with ease.

The Floor+ Alerta Mat is most effective when placed at the bedside or doorway to proactively give the care giver advanced warning of any patient at risk of falling, if they attempt to leave their bed or wander from their room. When the patient stands on the mat it will activate the nurse call system prompting the care giver to ascertain the patient's safety.

The Floor+ mat has a unique feature - an additional 6" lead which allows the nurse call button to be connected using only the one nurse call point. This feature provides care givers with more flexibility and choice when forming an individual 'Fall Prevention Programme' for a patient.

Code	Description
701075	Mangar Bathing Cushion with Compressor

- Easy set up
- Long lasting welded seals and strong wiring
- · Hygienic, antibacterial easy-clean material
- Large size avoids chance or overstepping by the patient
- Connect to nurse call point or standalone alarm monitor (alarm monitor is optional extra)
- Dimensions: 60 x 90cm (23.5 x 35.5")
- Choice of plug types

Code	Description
701030	Alerta Floor+ Nurse Call Alarm Mat - 2 Pin Mono (1 ring)
701031	Alerta Floor+ Nurse Call Alarm Mat - 3 Pin Stereo (2 ring)

DELUXE CARPET MAT CALL ALARM SYSTEM

The Nurse Call Mat is an innovative, tried and tested alert mat that has been in use in the care home environment for many years. When positioned strategically, the mat activates the nurse call system when a patient rises from a bed or chair and steps on to it.

- · Enhances patient safety
- · Works with nearly all nurse call systems
- · Saves staff time and no false alarms
- · User friendly and easy to operate simply plug in and use!
- · Large mat area reduces chance of 'over-stepping'
- · Still allows use of a patient call lead
- Also permits linking of additional mats (e.g. both sides of the bed)
- Fitted with either a 2 pin (1 ring) plug or a 3 pin (2 ring) plug.
- Other plug adaptions available
- 35" x 24" finished with a deluxe carpet/mat top

Code	Description
701101	Deluxe Carpet Mat Call Alarm Systems - 2 Pin
701102	Deluxe Carpet Mat Call Alarm Systems - 3 Pin

ALERTA BED ALARM SENSOR PAD & MONITOR

The Bed Alarm Mat is designed for use on a bed. With a simple 'plugand-play' system the care giver can quickly set up the mat and have it operating with ease.

The Bed alarm mat is most effective when concealed under the mattress to proactively give the care giver advanced warning of any patient at risk of falling if they attempt to leave their bed.

This mat comes with its own alarm monitor enabling it to function as a standalone unit but can also be easily connected to a nurse call system using the nurse call lead provided. This allows the care giver to choose between localised alerts or centralised nurse call system activation, prompting the care giver to ascertain the patient's safety. Once the patient returns to the bed the alarm is reset automatically.

The monitor can be powered by mains or battery making the system extremely versatile.

- Easy set up
- High and low volume alert
- Multiple choice alarm tone
- Adjustable delay to reduce false alarms
- · Low battery alert
- Alarm is reset automatically when patient returns to the bed
- Mains or battery powered (Adaptor for mains power is optional extra)
- · Hygienic, antibacterial easy-clean material
- Dimensions: 25 x 76cm (10 x 30")
- System includes: 1 x Bed Alertamat, 1 x alarm monitor and 1 x 2metre cable
- Available with a 2Pin Mono or 3Pin Stereo jack plug to suit most nurse call systems

Code	Description
701109	Alerta Bed Alarm System - 2 Pin Mono (1 Black Ring)
701121	Alerta Bed Alarm System - 3 Pin Stereo (2 Black Rings)
701175	Alerta Bed Alarm System - Courtney Thorne Adaption

ALERTA CHAIR NURSE CALL ALARM MAT & MONITOR

The Chair Alarm Mat is designed for use in a chair. With a simple 'plug-&-play' system the care giver can quickly set up the mat and have it operating with ease.

The Chair alarm mat is most effective when concealed under the cushion to proactively give the care giver advanced warning of any patient at risk of falling if they attempt to leave their chair.

The mat has its own alarm monitor enabling it to function as a standalone unit but can also be easily connected to a nurse call system using the nurse call lead provided. This allows the care giver to choose between localised alerts or centralised nurse call system activation, prompting the care giver to ascertain the patient's safety. Once the patient returns to the chair the alarm is reset automatically.

The Chair Alarm Mat is powered by battery but can also be powered by mains if an additional mains adaptor is purchased.

- Easy set up
- High and low volume alert
- Multiple choice alarm tone
- Adjustable delay to reduce false alarms
- Low battery alert
- Alarm is reset automatically when patient returns to the chair
- Mains or battery powered
- Hygienic, antibacterial easy-clean material
- Dimensions: 25 x 38cm (10 x 15")
- System includes: 1 x chair alertamat, 1 x alarm monitor and 1 x 2 metre cable

Code	Description

MAINS ADAPTOR FOR ALERTA MONITOR

This mains adaptor can be used as part of the Alerta Bed, Alerta Chair or

NURSE CALL MAT ADAPTOR LEAD

Used for linking the nurse call mat systems to an AidCall or Medicare System, Choice of five connectors, please ensure you look carefully at your existing connections to guarantee delivery of the correct item.

Leads come with female jack plug connection on one end and relevant socket connection on the other end

ALERTA DETECT MOTION SENSOR ALARM SYSTEM

The Alerta Detect PIR motion sensor uses infrared technology to trigger an alert when body movement is detected within the range of the infrared beam. The Alerta Detect is an alternative solution to the Alerta Mats where a PIR beam may be more appropriate. It is also an excellent facility to give patients the freedom and safety of their own room whilst still pro actively giving the care giver advanced warning of any patient at risk of falling, if they attempt to wander from their room.

The Alerta Detect is most effective when mounted at a door or at the bedside. When the patient moves into the range of the infrared beam it will activate the nurse call system prompting the care give to ascertain the patients safety.

- Easy set up
- Eliminates alarm noise (only alarms at the nurse call station)
- Battery powered with an option for mains power if a mains adaptor is also purchased
- Low battery alert
- System includes: 1 x motion sensor and 1 x nurse call lead
- Takes 3 x 1.5v Size AA batteries

EXTENSION LEAD FOR CALL ALARM MAT

For use with any of the Nurse Call Alarm Mats, this lead acts as an extension to the existing alarm mat lead and can be made to any specified length.

Available to fit any specified system (standard 2 pin and 3 pin listed below)

STANDARD PERCHING STOOLS

These height adjustable perching stools are available in a range of styles, with or without armrests and backs.

The robust frame is manufactured from powder coated steel and the grey vinyl seat and back upholstery is fully sealed. The frame is slightly lower at the front to give the seat a slight incline and to enable the user to raise and lower themselves from the stool easily. Non-marking slip-resistant rubber tips are supplied as standard.

- Seat Height: 540 700mm (211/4 271/2")
- Width between arm rests at bottom: 460mm (18")
- Width between arm rests at top: 500mm (20")
- Seat Depth: 285mm (111/4")
- External Width: 543mm (211/4")
- Max User Weight: 190kg (30st)
- · Four different options available

Code	Description

WALL MOUNTED SHOWER SEAT WITH DROP DOWN LEG

These wall mounted shower seats have fold down, height adjustable legs to provide stability where the wall construction does not allow an unsupported seat. The legs are finished with non-marking, slip-resistant rubber tips for additional safety. Constructed from easy-to-clean, blow-moulded plastic the seat has built in handles to give extra security to the user. They are available with a choice of aluminium or steel frame, both of which fold against the wall when not in use.

Seat Width: 490mm (19¼")
 Seat Depth: 280mm (11")
 Distance from wall: 380mm (15")

• Distance from wall when folded: $145 \text{mm} (5\frac{3}{4}\text{"})$

- Get in and out of your vehicle easily with this strong and simple device
- Soft grip, non-slip handle
- Fits majority of vehicles
- Inserts into U-shaped striker plate on vehicle door frame an extremely strong part of the car
- Max User Weight: 25 stone (158kg)

Code	Description
704503	Handy Bar Car Assist

RAISED TOILETING SEAT

Lightweight, all plastic construction for strength and durability, these toilet seats have a gently contoured surface for extra comfort. The seat slopes downwards slightly from back to front, so as to allow easier lowering and raising, and has a deep splash guard to minimise soiling. Resistant to stains and odours, it is fully sealed and easy to clean.

- The large rear cut-out on gives clearance for the coccyx and, combined with the gentle downward slope of the seat, makes rear personal hydiene possible
- The wide front cut-out also allows easier access for personal cleansing
- The two L shaped moulded plastic brackets have bonded rubber non-slip buffers to keep the toilet seat firmly in position. These brackets can be easily adjusted to fit on most sizes and shapes of toilets, by the use of two large fluted turning knobs. This makes fitting and removal of the seat very quick and easy
- It has no front bracket or front turning knob to avoid snagging skin or clothes. The front is secured by a lip
- Max User Weight: 190kg (30st)

Code	Description
707031	Raised Toilet Seat - 2"
707037	Raised Toilet Seat - 4"
707036	Raised Toilet Seat - 6"

PADDED RAISED TOILET SEAT

A soft cushion that attaches to the existing toilet seat to provide extra comfort and to raise the effective seat height. The cushion simply attaches with four hook and loop straps. The white vinyl covering protects the cushion and is easily cleaned.

Code	Description

WEYLUX 590J CHAIR WEIGHSCALE WITH BMI

These robust scales are very compactly designed which makes them particularly suitable for use in care homes where space may be restricted, yet the chair is roomy enough for the largest of patients. The scales easily manoeuvre round tight corners and conveniently store away when not in use. Chair supplied in brown.

KEY PRODUCTS FEATURES

- The innovative, unique clear three window backlit display shows weight, height and body mass index
- Approved and verified to higher Class III accuracy which is necessary where close daily monitoring of weight is required
- The scales are designed to give many years of hard use whilst maintaining accuracy without the need for on-going maintenance.
 Simple to use body mass index function
- · Castors braked to ensure stability
- · Powered by re-chargeable battery
- · Retractable foot rest facilitates access to chair
- · Capacity 200kg with 50g divisions

- **Dimensions:** 25 x 10x 6inches (63.5 x 25.4 x 15.2cm)

Code	Description
704007	Leg Trough Protector

ANKLE RING HEEL PROTECTOR

- Hollow fibre filled heel support
- Cotton covered with Velcro fastenings
- Designed to lift the foot off the bed to provide maximum pressure relief
- Supplied with synthetic fleece liner
- Machine or hand washable and flame retardant

REPOSE FOOT PROTECTOR & PUMP

Foot Protectors are a unique product designed specifically to minimise the risk of pressure damage to heels. A significant proportion of pressure ulcers occur on the heels due to a combination of pressure and friction/shear. Whilst support surfaces assist in reducing pressure, only a specific device such as the Repose Foot Protector can ensure that pressure on the foot is relieved totally. Clinical studies have shown the heel Protectors to be effective in a wide variety of settings.

- Studies found 'a significant improvement in skin condition and comfort'
- And also 'A reduction in incidence of heel pressure ulceration from 17% to 0%'
- May be used in bed or with feet elevated, easily secured with stocking or light bandage
- Can be used with other dynamic or static support surfaces
- Reduces impact of pressure, friction and shear

KEY PRODUCTS FEATURES

- 2 x Repose Foot Protectors and 1 x small pump supplied
- Inflated Dimensions: L380 x W200 x H180mm
- Max Patient Weight: 139kg

Code	Description
703001	Repose Foot Protector & Pump

PEDISAFE INFLATED HEEL PROTECTOR

PediSafe is designed for heel ulcer prevention & treatment. It also helps prevent footdrop & provides pressure relief.

- · Lightweight design for convenience of heel comfort
- Helps prevent footdrop and relieves pressure on the heels
- Soft fabric covering on interior provides patient comfort and protects extremely fragile skin
- Open hole design for air and moisture ventilation
- Three adjustable straps allow custom fit
- Manufactured from Polymer and Non-Woven Fabric
- Sold Singly

Code	Description
132052	PediSafe Inflated Heel Protector

HEELIFT SUSPENSION BOOT

The Heelift Suspension Boots relieve heel pressure by suspending the heel in space.

- Ideal for pressure sore prevention and treatment, and for those with diabetes, cardiovascular disease, dietary deficiencies, and more
- Adjustable hook and look straps, and elevation pads allow for a custom fit
- Tricot backing and polyethylene stiffener reduce friction and enhance client mobility
- · Prevents foot drop, unlike pillows or flat foam pads
- The smooth Heelift is specifically designed for edematous legs to minimise chance for irritation or pressure points
- Machine washable and latex free
- Available in two sizes and with a smooth or convoluted finish

Convoluted	Size	Calf circ.	Weight range
132594	Petite	152-254mm	32-59kg

SUPRIMA HIPSHIELD PANTS

Suprima Hipshield Briefs offer protection for the hips of the elderly in the event of a fall. They especially provide protection for the neck of the femur, the most vulnerable bone when a patient falls.

- · Comfortable to wear
- Allows freedom of movement without pressure sores and chafe marks
- Hardly noticeable due to low total weight
- Can be worn day and night
- Intelligent damping system reacts to different strains
- Re-usability after falls: protector returns to its original state after
- removal of strain
- Fully washable briefs and protector inserts
- · Available in sizes Small to XXLarge
- Unit Quantity: 1 Set (Set includes 1 pair of briefs and 2 hip protector
- inserts)

VINYL / BLUE VINYL / LATEX / NITRILE / SYNTHETIC / STERILE / HOUSEHOLD / POLYTHENE

GLOVES

At CLH we take infection control seriously. We only stock medical grade examination gloves and our own HAND SENTRY Vinyl, Nitrile and Synthetic gloves all conform to the European Standard EN455 Parts 1, 2, 3 and 4. Now that's quality you can rely on.

FEATURES OF THE HAND SENTRY GLOVES

- Powder Free
- Ambidextrous
- Non-Sterile
- Premium Quality
- Rolling edges
- Medical grade
- Manufactured in compliance with European Standards EN455 Parts 1, 2, 3 and 4 (Latex—EN455 Parts 1, 2 and 3)
- AQL1.5
- Box Quantity: 1 x 100
- Case Quantity: 10 x 100

HAND SENTRY VINYL POWDER FREE GLOVES

Synthetic material that offers an economical alternative to Latex and Nitrile whilst still providing hand protection in a low infection environment.

Code	Description
103512	Hand Sentry Vinyl Powder Free Gloves - Small
103513	Hand Sentry Vinyl Powder Free Gloves - Medium
103514	Hand Sentry Vinyl Powder Free Gloves - Large
103515	Hand Sentry Vinyl Powder Free Gloves - XLarge

HAND SENTRY BLUE VINYL POWDER FREE GLOVES

The blue nature of this vinyl glove means it is easily detectable if it splits and comes away from the hand—particularly useful in the kitchen

Code	Description
106002	Blue Vinyl Powder Free Gloves - Small
106003	Blue Vinyl Powder Free Gloves - Medium
106004	Blue Vinyl Powder Free Gloves - Large
106005	Blue Vinyl Powder Free Gloves - Extra Large

HAND SENTRY BLUE NITRILE POWDER FREE GLOVES

A synthetic polymer with rubber-like characteristics, much like latex but with superior protection.

Code	Description
105002	Hand Sentry Blue Nitrile Powder Free Gloves - Small
105003	Hand Sentry Blue Nitrile Powder Free Gloves - Medium

POLYSYNTHETIC POWDER FREE GLOVES

Made of a blend of polythene and synthetic polymers, this glove was developed to offer increased performance over PE gloves and an economical alternative to vinyl. Polysynthetic belongs to a new generation of gloves.

- Manufactured from a blend of Polythene (LDPE and LLDPE) and synthetic polymers
- Latex free reducing the risk of hypersensitivity and allergic reactions
- · Comfortable fit for increased performance and longer period of wear
- · Embossed for improved grip
- Hybrid latest technology combining strength of two materials
- Powder free to reduce potential dust contamination

REGULATORY COMPLIANCE

Manufactured in accordance with:

- European Personal Protective Equipment Directive 89/686/EEC
- CE Category: Cat III

Tested to:

- AQL 1.5
- EN420, EN374, EN455 part 1, 2 and 3
- Food approval EC1935/2004
- · Visually inspected for holes and minor defects
- Box Quantity: 1 x 250

Code	Description	
505020	Oasis™ Flushmee™ Moist Patient Cleansing Wipes	

OASIS MOIST WIPES

OASIS Wet Wipes are an effective and economical skin cleansing wipe suitable for patient and carer alike.

These moist wipes are impregnated with a gentle and effective cleansing solution to cleanse and moisturise the skin. This soap-free solution is also pH-balanced to 5.5 to be kinder to skin and is dermatologically approved. Designed for adult use; their size is considerably larger than that of baby wipes, meaning fewer wipes are required for everyday cleansing tasks such as freshening up between bed baths. Contributes to good hand hygiene, an essential element in infection control that may often be overlooked in the absence of readily available washing facilities. These polyprop wipes provide the solution to carers constantly on the go and less mobile patients. A pack placed by the bed or in the pocket means you can cleanse hands effectively in between tasks.

- Z-folded to facilitate removing only one wipe at a time
- Microwaveable
- Dermatologically tested
- Available in a flow pack or in a bucket

OASIS BED BATH WIPES

Each Oasis Bed Bath cloth contains a careful combination of skin cleansing agents and moisturisers. The combination of the cleansing agents and the cloth itself clean the skin by removing any sweat, dirt, grease, urine or faeces from the skin. The added moisturisers keep the skin feeling soft and prevents it from drying out so that it can perform its protective 'barrier' function.

The Oasis Bed Bath System uses a fresh cloth for each separate part of the body, so there is no possibility of washing with 'dirty water' or using a single wash cloth / flannel to clean all parts of the body.

A bed bath with the Oasis Bed Bath System takes up to half the time and is significantly easier for carers than a traditional soap and water bed bath. This makes the bed bath experience much less of an ordeal for the individual and reduces any discomfort or distress they may experience when being moved / positioned for cleaning.

Quickly warmed in the microwave for 60 seconds, the cloths will stay warm unopened for up to 15 minutes (or even longer if kept warm under a towel or pillow).

- · Dermatologically approved
- · Alcohol free and non-drying to the skin
- **Size:** 33 x 22cm
- Pack Quantity: 10
- Case Quantity: 24 x 10

503012 Oasis Bed Bath Wipes

OASIS SHAMPOO CAP - RINSE FREE

Wash the hair in one simple step with this unique pre-impregnated shampoo cap, leaving the hair 'towel dry' and smelling fresh.

Oasis Shampoo Cap Rinse Free are an excellent and convenient way to clean the hair when bending causes neck pain or it's difficult to get in or out of the bath or shower. No water, shampoo or conditioner is needed, simply warm in the microwave for 20 seconds or use cold to refresh the hair. The shampoo cap is placed over the hair and the head massaged for one to three minutes.

- Special rinse-free formula solves hair washing problems
- Conditioning shampoo is released when massaged
- The used solution is then absorbed back into the cap, along with any dirt, EEG gel, debris or even blood, leaving hair towel dry and smelling fresh
- Eliminates the need for bowls of water around electrical and intensive care equipment
- Reduces laundry bills and saves valuable nursing time
- Dermatologically tested
- Pack Size: Single
- Case Size: 30

COLGATE TOOTHPASTE MAXFRESH COOL

This extra fresh gel is infused with cooling crystals to enhance the toothpaste's ability to freshen breath. It does not mask odour - it truly freshens breath by getting to odour-causing bacteria, one of the causes of bad breath. As a result, breath stays fresh for hours. It also restores the natural whiteness of your teeth and has an intense flavour too!

- Dissolvable cooling crystals
- A burst of freshness to your entire mouth
- Whiter teeth
- Fights cavities
- Intense cool mint flavour
- Gets to odour causing bacteria
- Unit Quantity: 100ml
- Case Quantity: 12 x 100ml

HAND TOWELS

Our extensive range of paper hand towels may leave you confused so let us advise you:

Ply:

2 Ply is where 2 sheets of paper have been moulded together whereas 1 Ply is just 1 sheet of paper. 2 Ply is therefore the stronger and more absorbent hand towel

Fold:

V-Fold (Interfold) and Z-Fold hand towels are interfed into each other and are folded in a 'V' and 'Z' shape respectively.

C-Fold hand towels are not interfolded but have tabs that are folded at the ends to provide a pulling point.

Interfolded hand towels tend to dispense better from the dispenser coming out 1 at a time.

SPRINTUS VACUUM CLEANERS

In September 2014 it became mandatory for vacuum cleaners to have the EU Energy Label. This label runs from A-G and shows you, at a glance, a vacuum cleaner's energy usage rating, quality of cleaning on carpet and hard surfaces, as well as noise and dust emission. All the SPRINTUS vacuum cleaners have an energy label rating of 'A' - the best in its class!

- Characterised by their excellent suction power and efficient filtering
- Exceptionally practical, compact and light design
- · Lovely to use and to own

SPRINTUS T11 EVO

Discover the new EVO generation with maximum performance at minimal operating costs, saving you time and money. Due to the enormous performance of 210 mbar and the high container volume of 9 litres, you are very well equipped for long operating periods and efficient vacuuming. The economical 700 watt engine with a low noise level of only 72 dB(A) has sufficient power reserves and is adjustable to deliver optimum performance on different surfaces. The 9 litre container uses a bagless filter system but can also be used with filter-bags to provide total dust control.

- Dust-free waste disposal with the closeable, 5ply fleece filter bag or use bagless
- Comfortable, one-handed transport due to its lightweight and compact dimensions
- Comfortable working due to large On/Off switch designed to be controlled by the foot
- Easy emptying due to the lateral quick release fasteners
- Two parking positions for on-board storage of the nozzle and tubes when not in use
- Four accessory slots to hold all the end tool options on the machine - there when you need them!
- · Power regulator for adjusting the suction to any surface
- All-around elastic bumper
- 13meter activity radius
- Switchable Combi nozzle 280mm
- High quality aluminium suction tubes
- Hard wearing suction hose
- One-handed transportation
- Latest fleece filter technology
- Unique lockable cable hook

Code	Description
602105	Sprintus T11 Evo Professional Dry Vacuum Cleaner

VISIT US ONLINE WWW.CLHGROUP.CO.UK

Fully-equipped dry vacuum cleaner for highest requirements in comfort and cleanliness, including Epa12 filter. In combination with the Electric Turbobrush, this vacuum cleaner is ideal for heavily-soiled carpets of all kinds, including shag-carpeting. An exceptionally quiet and powerful compact vacuum. With control buttons on the ergonomic handle you can comfortably switch the vacuum and the brush on and off per button, without tiresomely bending over. Follow-up suction takes care of remaining particles in the hose and brush before the motor shuts down. The working height of the stainless steel telescopic tube can be adjusted for any user and allows for efficient and effortless work. The large rubber-coated wheels assure noiseless rolling across tile floors and leave no trace behind on sensitive surfaces.

- Dust-free waste disposal with the closeable, 5-ply fleece filter bag
- Comfortable, one-handed transport due to its lightweight and compact dimensions
- Convenient, foot-operated power button and parking position for the nozzle on the side of the device
- High dust intake with the 280mm combination nozzle
- Suitable for allergy sufferers due to the included Epa12 filter cartridge
- Extra long wheel base prevents tipping front
- Rubber coated fixed back wheels and castors for silent running on tiles
- Runner on the underside allows for a smooth crossing of thresholds
- All-around elastic bumpers
- High-quality extruding hose without the memory-effect
- Easy change red high-visibility cable
- Automatic socket for the Electric Turbo-brush, conveniently located on the ergonomic suction tube handle
- Telescopic suction tube made of stainless steel

Code	Description
602106	Sprintus Maximus Pro Dry Vacuum Cleaner

SPRINTUS WATERKING

A quiet and powerful vacuum cleaner with 30 litres container volume. Thanks to the mechanical output regulator, suction power can be adapted to any kind of flooring. With the integrated blower function, filters and work benches can be blown clean, or wet surfaces can be blown dry. The Waterking is the ideal vacuum for facility cleaners. Used in conjunction with the 360mm wide floor nozzle, this machine displays outstanding performance on a range of surfaces sucking up any liquids as well as dirt.

On-board storage for the hose, power cord and accessories, as well as a parking position for the tube and an ergonomic handle, ensure optimal handling and make the Waterking fit for professional use.

- Outstanding water/dirt intake
- Consistent separation of intake air and processed air
- Reliable floating gauge to protect motor from liquid even works during heavy foam growth
- Cyclone water separation system to ensure the blower feature is kept moisture-free
- Robust undercarriage with 50mm swivel castors and large wheels
- Rotary joint on the vacuum hose for hindrance-free manoeuvring
- Ideally suited for dry vacuuming in combination with the fine dust filter cartridge and the fleece filter bag
- Mess-free waste disposal due to the closeable fleece filterbag

Code	Description
602107	Sprintus Waterking Wet / Dry Vacuum Cleaner

SPRINTUS MEDUSA POWERED SWEEPER

Industrial battery-powered sweeper for the quick, quiet and cordless cleaning of all surfaces, indoor and outdoor. Ideal for entryways of all kinds, including hallways, staircases, driveways, outdoor flat surface areas, offices, dining rooms and many other applications. The Medusa is a battery-powered machine developed specifically with professional users in mind. It has a working width of 37cm, including its two inwards-rotating side brushes. Objects with a diameter of up to 2cm can be easily vacuumed during operation. With its lightweight and compact dimensions, the Medusa is designed for hard-to-reach spaces. The side brushes enable a complete and thorough cleaning along edges and even in the smallest corners. The powerful Lithium-lon batteries (without memory effect) with 10.8V and 1.5Ah each, allow an operation time of approx 45 minutes per battery - 90 mintues total use when both batteries are fully charged. These are charged on a quick charging unit with a charging time of only 70 minutes.

- Large foot pedal for activation without bending over
- Main cylinder brush and side brushes can be replaced without the use of tools
- Aluminium telescopic handle for an optimum work position
- Rubber wheels leave no traces, even on sensitive surfaces
- · Enormous waste collection tray with 2 litres capacity
- Changeable bristled rim on the underside of the housing
- Space-saving storage position
- · Compact, light, and easy to handle for any user

Code	Description

SEBO DART 1 VACUUM CLEANER

Fast, light and powerful. Built for professionals.

The Dart offers professional performance in a lightweight, versatile and easy to manoeuvre machine. It is designed to be agile, user-friendly and to achieve superb cleaning results quickly, easily and economically. With a 31cm brush width, the Dart 1 is ideal for small to medium sized areas.

- · Twin motor
- Flex neck for manoeuvrability
- On board hose
- · Crevice nozzle
- 4 level height adjustment
- · Auto shut off, if brush is jammed
- S-Class filtration

RUG DOCTOR MIGHTY PRO QUICK DRY MACHINE

The Rug Doctor Carpet Cleaning machine is legendary for ease-of-use, friendly design and reliable results. Three needle jets apply a controlled amount of premixed water and detergent solution deep into the carpet pile.

- The unique bi-directional agitating brush scrubs the carpet fibres 3200 times a minute. This ensures every fibre is thoroughly cleaned
- A powerful vacuum recovers up to 80% of the used cleaning solution, this means the carpet is virtually dry after cleaning
- Rugged and long lasting, this machine stands up to heavy workout

The true "all in one" machine that is totally at home be it in the wet or the dry. The combination of the TwinFlo bypass vacuum motor and the PowerFlo pump system ensures exceptional results. Comes with a superb kit for wet and dry modes.

USE FOR:

- Dry Vacuuming
- Wet Vacuuming
- Scrubbing & Drying hard floors
- Deep cleaning the carpet
- Cleaning the upholstery
- Unblocking the sink

Code		Description
60204	40	George Spray Extractor Cleaner

NUMATIC CHARLES WET AND DRY VACUUM CLEANER

You want a vacuum cleaner that is totally without compromise, be it for wet or dry use, and that's exactly what you get with Charles. One minute Charles will be up to his neck in dust and dirt, keeping everything spick and span, and then suddenly the call arrives and he's expected to unblock the sink or dry the floor. Well, it's no problem with Charles, he has a full TwinFlo motor and performance to give you exactly what you need. Big filters and HepaFlo dust bags for dry use and a safety float valve of wet pick-up.

Tubes are lightweight aluminium and will never rust. Two floor nozzles, one for wet work and a superb combination nozzle for carpets and hard floors, and even that has a stainless steel high efficiency carpet plate. Add to this three smaller tools and you are ready to tackle almost anything that comes along, be it floors or floods, corners or curtains, you are in control.

Code	Description
602094	Numatic Charles Wet & Dry Vacuum Cleaner

NUMATIC PRO VAC AND CADDY

Innovative trolley-style vacuum with AutoSave technology. This vacuum provides ease of handling and the total convenience of lift off storage for all the cleaning essentials.

- Hepa-Flo filtration
- Plugged cable rewind
- Wand docking
- · Complete with single red caddy and full accessory kit

Code	Description

DUPLEX 340 STEAM FLOOR CLEANER

Twin contra-rotating brush floor cleaning machine, suitable for all flooring surfaces.

EFFECTIVE ON:

- Hard floors
- Carpets
- Safety flooring
- · Entrance matting

With a cleaning width of 340mm (13") the machine cleans, scrubs and picks up the dirty water. Its brushes are offset to one side and the machine cleans in both directions. This allows 'right to the edge' cleaning, alongside walls and into corners. A range of easily interchangeable brushes are available to suit any particular floor surface. It is exceptionally manoeuvrable and is very quiet in operation with no vacuum. Comes complete with steam kit for a perfect clean.

Please phone to request further details.

SANGENIC CASSETTE REFILLS

For use with the Sangenic Tub Disposal system.

- Fragranced, anti-bacterial film which is ideal for light to medium odour protection
- Each cassette lasts up to a month of average use
- The film uses 20% less plastic than using a plastic bag
- Unit Quantity: 6 tubs

Code	Description
141501	Sangenic Cassette Refills

SANGENIC EASISEAL TUB

Sangenic Easiseal is the most convenient way to dispose of continence products within the home.

Not just a bin, Easiseal individually wraps and seals each pad in a fragranced, anti-bacterial film hygienically locking away germs and odour and proven to be 25 times more effective at odour prevention than using a plastic bag.

The pads are kept discreetly sealed away in the tub, saving endless trips to the outside bin.

- Convenient
- Hygienic
- Complete odour protection
- Discreet
- Easy to use
- Available as a Standard or Maxi Tub

Code	Product	Capacity	Height
141503	Standard Tub	Up to 18 Pads	50cm
141502	Maxi Tub	Up to 40 Pads	85cm

INCONTINENCE

With more than 4 million people suffering from incontinence in the UK, and most of those sufferers living in care homes, incontinence is a big topic that domands attention.

At CLH we work with the nurses at our disposal from our valuable suppliers to ensure that your team are properly trained in the correct diagnosis and use of incontinence products. Our main brand, Lille Healthcare, offers a comprehensive range of disposable products suitable to manage all types and levels of incontinence. Lille technologically advanced products are 100% breathable and hypoallergenic, ensuring optimum comfort, security and discretion.

LILLE CLASSIC FORM RANGE SHAPED PAD

The large shaped Classic Form pads are ideal for managing moderate to heavy incontinence among active people.

Comfortable and highly absorbent, the Classic Form large shaped pads can be worn with net pants.

· Polyethylene back sheet

202518	6321	Large Extra	2	28	4 x 28

LILLE SUPREM FIT RANGE DIAPER

The breathable all-in-one briefs SUPREMfit are an effective solution for moderate to heavy incontinence among non-active people. They are also particularly suitable for faecal incontinence.

- Waterproof back sheet that enable the air to flow to maximise skin integrity
- Quiet polyethylene back sheet limits awkward noise helping to preserve the user's dignity
- Double absorbent core in the centre of the pad to optimise absorbency level
- The acquisition layer improves the rate of absorption, greatly reducing the risk of leakage and any potential feeling of wetness
- Hydrophobic leg cuffs prevent sideways leakage
- The wetness indicator will turn blue in contact with urine and indicates when the pad should be changed for maximum comfort
- New generation super absorbent polymer maximizes the absorbency level and neutralises odours
- The Suprem range has been tested under dermatological conditions with the results proving the pads to be hypoallergenic

AIR FRESHENERS / AIR FRESHENER REFILLS / ODOUR NEUTRALISERS

ODOUR CONTROL

When it comes to controlling odours, care homes are one of the most challenging environments

A simple can of air freshener may be suitable in a domestic environment, but care homes will often require specialist chemicals that treat odours at the source rather than just masking the problem.

That is why we recommend Zybax, a unique and harmless liquid that scientifically destroys the bad, smelly bacteria.

Turn to page 270 for more information on this highly rated product!

CHARM 5IN1 AIR FRESHENER

Charm Fresh Room Fragrance contains a blend of essential oils that help to effectively neutralise unpleasant odours, leaving a fresh, distinctive fragrance to enhance any room in your home.

Charm is 100% powered by fresh air as a propellant making it non-flammable, lessening the impact on the environment and providing a purer, fresher fragrance in a soft and effective fine mist spray.

- · Powered by fresh air
- · Acts in seconds
- Non Flammable
- Fresher fragrance
- Eliminates odoursChoice of scents
- Unit Quantity: 240ml
- Case Quantity: 12 x 240ml

ZYBAX ULTRA ODOUR ELIMINATOR & MULTI-PURPOSE CLEANER

Zybax Ultra is the ultimate odour eliminator. Containing no harmful chemicals, Zybax Ultra is totally environment-friendly but ultra-powerful. Zybax uses 5 layers of science to attack odours:

- 1. Live Bacteria within the chemical breaks down organic matter. Naturally occurring bad bacteria are replaced by Zybax good bacteria
- 2. Enzymes work immediately to breakdown any biofilm at the odour source
- 3. Surfactant delivering an effective multi-purpose cleaner
- 4. Zybax Odourbond molecules bond to the odour molecules neutralising the odour
- 5. Carefully selected and blended fragrances that complement any environment

Zybax can be used on any surface not normally harmed by water such as carpets, upholstery, curtains, washrooms, floors, walls etc. and can be used to clean washrooms, bathrooms, toilets and urinals. Hugely effective against a huge variety of odours ranging from urine, cigarette smoke, refuse, faeces, vomit and sour milk.

OPTILUBE STERILE LUBRICATING JELLY

Not all lubricating gels are the same. Optilube has been created by working in collaboration with clinicians - Specialists in UK laboratories have tweaked the formulation, fine-tuned the viscosity and perfected the consistency to suit all clinical procedures.

OptiLube is a class IIa sterile lubricating gel.

- Class IIa medical device
- Water soluble and pH balanced
- Adheres well to gloves and instruments
- Will not damage rubber or metal equipment and is safe to use on human tissue
- Comes in a 5g sachet promoting advanced infection control
- Unit Quantity: 150 x 5g

Code	Description
903135	Optilube Sterile Lubricating Jelly

SLEEP-KNIT RANGE

An innovation in textile design and processing that is revolutionising healthcare bedding Sleep-Knit is a knitted-fitted bedding system that uses a specially constructed four way stretch fabric, combined with a patented bottom sheet design, to produce great results for residents, staff and the laundry.

- Only requires one person to make the bed and never requires ironing, thus saving time and money
- Remains crease free and helps to reduce shear and friction, thus improving resident comfort
- · Latex free and contains no elastic
- Polyester bedding is flame retardant to European Standard EN ISO 12952

SLEEP-KNIT SMART FR POLYESTER FITTED BOTTOM SHEETS

SMART (BOTTOM) SHEET

Using a patented under-wrap design, Smart Sheets fit the vast majority of healthcare mattresses, even when beds are profiled.

- Can also be used on dynamic mattress systems
- Available in a range of colours

LINEA COLLECTION BEDROOM FURNITURE RANGE

The clean, simple lines and contemporary decorative style of the Linea Collection will help to bring a calm and order to any size or shape of bedroom. Its bold geometric look is cleverly softened by the added features of contrasting cream doors and drawer fronts.

- The tops of all units are 25mm thick with soft rounded corners and smooth profiled edges
- · All units have 15mm thick solid backs
- Carcase construction is glued, dowelled and mechanically fixed for maximum strength and durability
- 170 degree all metal hinges with multi directional adjustment
- Metal sided drawer boxes with easy glide roller runners, minimum 15mm thick solid drawer base and back rail
- Large contemporary all metal handles which are fixed through the door or drawer front using metal threaded bolts
- · All tops are finished using anti-microbial lacquers
- · Finish: Oak Exterior with Cream Fronts
- · Bedside Chest comes with top drawer lock

HARLEY DEMENTIA FURNITURE RANGE

The Harley bedroom range has been specifically designed to support and meet the needs of people living with dementia.

This range has been developed to try to help you promote a safe and comfortable surrounding for your residents to feel at home in. Harley incorporates key design points to help minimise confusion and anxiety, which may help your residents with their daily routine.

KEY FEATURES:

- Glued dowelled and screwed
- Designed for contract
- Solid backs to all units
- 170º degree hinges
- Hanging rail
- Optional locks
- Metal sided drawer boxes
- Quality fittings
- Soft rounded corners
- Anti-microbial finishing lacquers. Melamine faced to aid easy clean and hygiene
- Large visual all metal handles
- Tested to BS 4875 Part 7 Level 4
- Tested to BS 4875 Part 8
- UK Manufactured
- 5 year furniture guarantee

FEATURES IN DETAIL:

- Our unique open section on the wardrobes allows the clothes to be seen, touched and accessed very easily. This section is open which means that there is no glass or polycarbonate door panel, which may cause distress due to reflections and access confusion
- Drawer fronts have soft rounded corners and profiled edges with the option of a large scoop detailed handle
- The tops of all units have soft rounded corners and smooth profiled edges. Low level units are fitted with a vertical rail at the back to prevent anything falling behind the unit and being lost
- Mirrors have the option of being folded closed, as reflections can cause distress and upset if they do not recognise themselves

- The headboards have large smooth rounded corners, which are made from laminated boards that are hygienic, easy to wipe and keep clean
- Memory boxes provide a history of the individual and are a great way
 to promote a person-centred approach, providing carers and visitors
 with valuable opportunities for interaction. The memory box has a
 slide out acrylic front panel, removable acrylic shelf and a pin board
 back to allow pictures to be mounted with ease
- The large scoop detail drawer fronts, although helpful for some, are not always suitable for all residents. Therefore, you can have the choice of upgrading to full drawer fronts with handles instead

Available in 5 different wood finishes; Maple, Beech, Oak, French Walnut and Opera Walnut.

YORK SOLID WOOD FURNITURE RANGE

A distinctive range of country oak solid wood furniture.

This bedroom range displays all the hallmarks of classic rustic furniture. Extra thick tops, generous proportions and hand selected knotty oak, giving this range charm and a sense of quality that only solid wood furniture can offer.

CLH WATER RESISTANT DIVAN SET

The CLH Water Resistant range is perfectly designed for use in nursing homes. The mattress features a framed spring system coupled with flame retardant fillings under a PVC coated fabric and has a flat top finish. The Divan base is built with an increased level of reinforcements using selected softwood and hardwood timbers to withstand the rigours of use. The robust fixed leg design allows the use of hoists and over-bed tables.

Please Note: the fabric is waterproof, but where seams are sewn, water could ingress. We recommend the use of a waterproof mattress protector in environments where severe incontinence could occur.

- Water Resistant
- 192 springs
- **Size:** 90 x 190cm
- Mattress Depth: 17cm
- 6 fixed legs 4 with glides, 2 with castors
