RENAISSANCE ATTENTIVE BATHING

Specifically aimed at the Care Home / Carer market, the Excel range of baths offers both fixed and height adjustable options with or without integrated swing seats.

EXCEL 100

This is a fixed bath only, with hoist access panels for use where a mobile hoist is required, or a full height panel if a ceiling track system or fixed hoist is being used to get the bather in and out of the bath.

Prices from £1112.00

EXCEL 300

This is a fixed bath with a powered seat, both up and down and traversing in and out of the bath; the Excel 300 will be an ideal solution in many situations. The bath also features the hoist access or full front panel and comes with an easy to use handset.

A further option with the Excel 300 is a detachable seat and transporter system. This system enables the person being bathed to be taken from their bedroom, hoisted into the bath and bathed, without the need for additional lifting and handling.

- Safe Working Load: 24 stone

Prices from £4407.00

EXCEL 400

This is a powered height-adjustable bath with no swing seat. If a seat is unsuitable for the person being bathed and a sling or cradle is a more practical and comfortable option, then the Excel 400 gives the carer the ability to raise the bath to an easier working height. The bath also has the hoist access panel so that a hoist can be used to bathe the patient. An easy to use handset allows you to move the bath up and down effortlessly.

- Safe Working Load: 30 stone

Prices from £3654.00

EXCEL 600

This is a powered height-adjustable bath with an integrated powered seat for use in nursing situations or where particular care is required. The electrically-operated bath rises smoothly and quietly once the seat has been gently powered into the bath using the hand control. The bath is available in three different designs to suit a particular client and the environment in which it is to be used.

A further option with the Excel 600 is a detachable seat and transporter system which enables the client to be taken direct from their bedroom and into the bath without transferring them.

- Safe Working Load: 24 stone

Prices from £6359.00
