GLOBEX EVACUATION SOLUTIONS

The only evacuation equipment approved by London Fire Brigade Enterprises

There is a common misunderstanding that it is the responsibility of the emergency services to ensure everyone evacuates from a building safely, it is not!

It is a legal requirement for employers and service providers to ensure the safe evacuation of mobility impaired persons in the event of an emergency.

We feel responsible for raising awareness of this issue in view of protecting your residents and staff, whilst also offering cost-effective solutions.
