

## DYNAMIC MATTRESS RANGE BROCHURE

### G1 EMBEDDED HYBRID SYSTEM

### G4 INTEGRATED HYBRID SYSTEM

Code	Description	CLH Price
703095	G1 Hybrid System - Mattress	£425.00
703096	G1 Hybrid System - Pump	£250.00

The G1 Integrated System can be used as a static mattress or a dynamic mattress, by connecting the pump. When the near-silent pump is in operation, a row of cells alternate underneath a layer of foam.

Type of Mattress: Replacement  
Risk Level: Very High Risk  
Pump: Digital Automatic  
Max User Weight: 254 kg  
Depth: 16cm (6 inches)  
Cover: Waterproof, stretch

Code	Description	CLH Price
703091	G4 Hybrid System - Mattress	£567.50
703092	G4 Hybrid System - Pump	£338.50

The G4 Integrated System offers a very high risk support surface as a static mattress or a dynamic mattress. The unique 'Foam-In-Cell' technology means the mattress can be upgraded to an alternating air system with no layer of foam between the patient and the cells

Type of Mattress: Replacement  
Risk Level: Very High Risk  
Pump: Digital Automatic  
Max User Weight: 254kg  
Depth: 16cm (6 inches)  
Cover: Waterproof, stretch

### PREMIER ACTIVE 2 HYBRID MATTRESS SYSTEM

An embedded system with a layer of foam on top of the cells. Very high risk.

Code	Description	CLH Price
703068	Premier Active 2 Hybrid - Mattress	£535.00
703066	Premier Active 2 Hybrid - Pump	£325.00

All prices shown exclude VAT and are correct at time of print. E&OE.
