UV resistant	Colourfast to sunlight Grade 7/8
Anti-bacterial/Anti-fungal	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA
Waterproof	Hydrostatic Head BS3424 > 1 metre
Breathable	Moisture vapour permeable
Martindale	Severe Contract > 100,000
Stain resistant	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice
Composition	100% Treated polyester. 145cm (57") wide

### Technical Information

We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.

Not suitable for use as removable loose covers.

Technical specifications may be amended, please check for the latest information.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Bespoke colours can be produced subject to minimum quantity orders.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

### Fabric Care

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Most stains can be removed using cold/warm water and a clean microfibre cloth, however poorly fixed clothing dyes may cause permanent staining.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Remove all stains immediately before they set.

Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric.

Please refer to the Care Sheet on the Agua website for further details.

Cushions should not be left outside in all weathers as water will penetrate through the seams and zips.
