Anti-bacterial/Anti-fungal	Resistant to microbial or fungal growth including Salmonella, E Coli and MRSA.
Waterproof	Hydrostatic Head BS3424 > 1 metre.
Martindale	Severe Contract > 100,000
Stain resistant	Excellent stain removal has been observed for grease, ink, blood, urine, coffee, iodine, betadine, ketchup, chewing gum, chocolate, grape juice.
Composition	2% Vinyl Acrylic, 64% Polyvinylchloride, 23% Cotton, 11% Polyester
Width	140cm (55") wide.

Technical Information

We recommend a minimum of 32 stitches per 10 cm (8 stitches per inch) and seams must have a minimum 12mm (0.5") bite on the fabric.

Not suitable for use as removable loose covers.

Please note that all fabric offered is subject to minor tolerance in respect of shade and other slight variations.

Technical specifications may be amended, please check for the latest information.

Please ask if you require a sample of the current batch available but be aware that stock can move quickly.

Bespoke colours can be produced subject to minimum quantity orders.

Fabric Care

Poorly fixed clothing dyes, e.g. denim, will cause permanent staining. Most stains can be removed using cold/warm water and a clean microfibre cloth.

Use a vacuum cleaner or soft brush to remove dust and solid particles.

Always try cleaning products on a hidden piece of fabric to test suitability.

Wipe frequently with a damp cloth to maintain the appearance of the fabric.

All spillages should be removed immediately with a clean absorbent cloth.

Stains from products containing oil and grease should be treated with a spirit based solution.

If soap based cleaners are used, all soap residues must be rinsed from the fabric.

Can be cleaned with mild Hypochlorite solutions (up to 10,000 ppm of available chlorine - including Haz Tabs and Chlor-Clean) or Mineral Spirit for infection control purposes.

Can be steam cleaned in situ.

Do not machine wash or dry clean.

Do not use solvents, chemical agents, waxes or polishes as this will damage the surface of the fabric

Use cold water when treating stains caused by bodily fluid.

Do not use marker pens on the back of the fabric.

Please refer to the Tierra Eco Fabric Technical Specifications PDF download on the Agua website for further details.

AGUA

PERFORMANCE UPHOLSTERY FABRICS

A new and innovative
33% plant based
 eco-friendly faux leather
 ideal for interior uses.

Driven by Agua's long tradition of innovation and technical excellence, the Tierra Eco Collection incorporates 33% plant based material in the manufacturing process. This new technique makes the product strong and hardwearing yet ultimately biodegradable on disposal. There is no compromise in performance, and the collection has been rigorously tested and achieved an impressive 100k+ Martindale abrasion rating.

Our products have always been phthalate free and Reach* compliant. Our processes are non-toxic and the methods used during manufacture and finishing ensure that potentially hazardous accidental cross-contamination is minimised to the greatest possible degree.

All our fabrics meet the stringent Oeko-Tex** standards, regardless of origin, so are free from harmful chemicals and safe for human use.

Agua's mission has been and will continue to be the development of technically innovative fabrics offering uncompromised technical performance with the least negative environmental impact possible.

* Registration, Evaluation, Authorisation and Restriction of Chemicals (EU regulation: 18th December 2006)
